[Project No. 2492-013-Maine]

Woodland Pulp LLC: Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the Vanceboro Dam Storage Project, located on the East Branch of the St. Croix River Washington County, Maine. The project does not occupy any federal land.

Staff prepared a final environmental assessment (EA), which analyzes the potential environmental effects of licensing the project, and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the final EA is on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. k. Description of Request: The licensee requests a non-capacity

amendment of its November 21, 2013 license. The licensee states that, due to economic shifts, it is no longer economically feasible to add a 1,026 kilowatt (kW) low flow turbine to the existing powerhouse, as proposed during the relicensing process. The licensee instead proposes to replace the existing fixed-blade turbine with a variable pitch Kaplan turbine in order to achieve compliance with instantaneous run-of-river operations and other license requirements. The licensee's proposed amendment would reduce the authorized installed capacity from 3,026 kW to 2,000 kW. The licensee indicates that its proposed amendment would allow for electricity generation over a broader range of inflows, as low as 160 cubic feet per second, while enabling the project to meet its run-of-river operational requirement for the protection of aquatic resources downstream.

l. Locations of the Application: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Filing and Service of Responsive Documents: Any filing must (1) bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to the proposed non-capacity amendment. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application.
