The competition was announced in the **Federal Register** (FR Doc. No FR-5800-N-18) on Thursday, September 4, 2014. Applications were rated and selected for funding on the basis of selection criteria contained in that notice.

The Catalog of Federal Domestic Assistance number for this Delta

Community Capital Initiative program is 14.271. The Delta Community Capital Community Initiative is designed to increase access to capital for business lending and economic development in the chronically underserved and undercapitalized Lower Mississippi Delta Region. Specifically, it will provide direct investment and technical assistance to community development lending and investing institutions that focus on business lending and economic development to benefit the residents of the Lower Mississippi Region. Eligible applicants for the Delta Community Capital Initiative are Federally recognized Indian tribes and local rural nonprofit organizations having a 501(c)(3) status with the IRS. The funds made available under this program were awarded competitively through a selection process conducted by HUD.

In accordance with section 102(a)(4)(C) of the Department of Housing and Urban Development Reform Act of 1989 (103 Stat. 1987. 42 U.S.C. 3545), the Department is publishing the grantees and amounts of the awards in Appendix A to this document.

Dated: October 1, 2015.

Low-Effect Habitat Conservation Plan for Seven Covered Species, Los Angeles Department of Water and Power Land, Inyo and Mono Counties, California

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability; request
for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application for a 10-year incidental take permit (ITP) pursuant to the Endangered Species Act of 1973, as amended (Act), from the Los Angeles Department of Water and Power (applicant). The application includes the draft habitat conservation plan (draft HCP) for the Los Angeles Department of Water and Power's operations, maintenance, and management activities on its land in Mono and Inyo Counties, California, pursuant to the Act. We invite public comment on the permit application, draft HCP, and draft Environmental Action Statement/Low Effect Screening Form. The Service is considering the issuance of a 10-year ITP for seven covered species in a 314,000-acre permit area. The permit is needed because take of species could occur as a result of the proposed covered activities.

DATES: To ensure consideration, please send your written comments by November 6, 2015.

ADDRESSES: You may obtain copies of the draft HCP and Environmental Action Statement/Low Effect Screening Form online at http://www.fws.gov/carlsbad/HCPs/HCP_Docs.html. You may request copies of the documents by email, fax, or U.S. mail (see below). These documents are also available for public inspection by appointment during normal business hours at the office below. Please send your requests or written comments by any one of the following methods, and specify “LADWP HCP” in your request or comment.

Submitting Request for Documents/Comments: You may submit comments or requests for more information by any of the following methods:

SUPPLEMENTARY INFORMATION:

Introduction

The applicant, the Los Angeles Department of Water and Power, requests an ITP under section 10(a)(1)(B) of the Act. If approved, the applicant anticipates the taking of five federally listed species and two unlisted species as a result of activities undertaken or authorized on lands held by the Los Angeles Department of Water and Power in Inyo and Mono Counties. These activities are associated with

water conveyance, agriculture, recreation, road maintenance, habitat restoration, and other land management activities. Take of listed species would be incidental to the applicant's performance or authorization of these activities on lands they manage.

Background

Section 9 of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), and the Code of Federal Regulations (CFR) at 50 CFR 17 prohibit the “take” of fish and wildlife species federally listed as endangered or threatened. Take of federally listed fish or wildlife is defined under the Act as to “harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect listed species, or attempt to engage in such conduct” (16 U.S.C. 1538). “Harm” includes significant habitat modification or degradation that actually kills or injures listed wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, and sheltering (50 CFR 17.3(c)). Under limited circumstances, we may issue permits to authorize incidental take, which is defined under the Act as take that is incidental to, and not the purpose of, otherwise lawful activities. Regulations governing incidental take permits for threatened and endangered species are found in 50 CFR 17.32 and 17.22, respectively. All species included on the incidental take permit, if issued, would receive assurances under the Service's “No Surprises” regulation (50 CFR 17.22(b)(5) and 17.32(b)(5)).

Applicant's Proposal

To comply with the requirements of the Act, the draft HCP defines biological goals and objectives, evaluates the effects of covered activities on covered species, describes a conservation strategy, describes a monitoring and adaptive management program, identifies changed circumstances and responsive actions, identifies funding sources, and identifies alternative actions to the proposed impacts. The draft HCP is intended to be a document that will facilitate regional species conservation and assist the applicant to better meet its legal obligations to provide water and power to the citizens of Los Angeles while managing its non-urban lands. The draft HCP will also provide a coordinated process for permitting and mitigating the incidental take of covered species as an alternative to activity-by-activity review.

The draft HCP addresses seven covered species, including three fish species and four bird species. The permit would provide take authorization for all covered species
