

Reserve Officer Training Corps Scholarship Program, Uniformed Services University of the Health Sciences, or Army, Navy, and Air Force Scholarship and Non-Scholarship Programs.

The completed forms are processed through medical reviewers representing their respective services to determine a medical qualification status. Associated forms may or may not be required depending on the medical information contained in the medical examination. If the medical examination and associated forms, if necessary, are not accomplished, individuals reviewing the medical examination cannot be readily assured of the medical qualifications of the individual. Without this process the individual applying to any of these programs could not have a medical qualification determination. It is essential that individuals have a medical qualification determination to ensure compliance with the physical standards established for each respective military service program.

As central collection agency for foreign waterborne transportation statistics, the Corps is responsible for meeting the needs of other federal agencies that require these data. The Maritime Administration, the U.S. Coast Guard, the Bureau of Transportation Statistics, the Environmental Protection Agency, and the Bureau of Economic Analysis also require these data.
