SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior (DOI) manages the "America the Beautiful—The National Parks and Federal Recreational Lands Pass" (hereinafter "Pass" or "Pass System"). The purpose of the Pass System is to manage Pass program activities and information about organizations and individuals who purchase or participate in Pass initiatives, receive the "America the Beautiful—The National Parks and Federal Recreational Lands Pass", or register to receive information about the Pass program and stewardship opportunities. Passes may be purchased online, or via mail or telephone. The information collected is required to establish eligibility; process financial transactions to complete Pass purchase requests; fulfill Passes to individuals ("fulfill" and "fulfillment" refer to shipping and handling of Passes), Federal recreation sites, and third parties; and provide associated customer services such as sending renewal notices and providing information about the Pass program and Federal lands. Any entity authorized to sell and fulfill Passes on behalf of the government will be barred from selling, renting, licensing, sharing, or disclosing to third parties any personal information collected. Any such entity will also be barred from using any personal information collected for purposes other than to sell and fulfill Passes. Informational or promotional messages will be sent to individuals and organizations only if they have affirmatively requested such messages through an "opt-in" mechanism.

The Every Kid in a Park (EKiP) initiative is an interagency effort between the National Park Service, Bureau of Land Management, Fish and Wildlife Service, Bureau of Reclamation, Forest Service, Department of Education, Army Corps of Engineers, the National Oceanic and Atmospheric Administration, and the General Services Administration to provide free entrance and standard amenity fees to U.S. students. The EKiP program promotes education about

America's wildlife, resources, and history, and encourages fourth grade students and their families to visit federal public lands and waters by issuing fee-free annual passes to recreation sites managed by DOI and its Federal partners. These EKiP program activities are managed by DOI with participating bureaus, offices, and partners under the authority of the Federal Lands Recreation Enhancement Act of 2004 (REA), 16 U.S.C. 6804.

DOI is proposing to amend the system notice to provide updates to the Pass System and include information on the EKiP initiative. Amendments to the system include updates to the system location, categories of individuals covered by the system, categories of records in the system, authority for maintenance of the system, storage, safeguards, retention and disposal, system managers and addresses, notification procedures, records access and contesting procedures, records source categories, and updating the routine uses to include activities related to the issuance of Passes and management of the Pass and EKiP programs. This system notice was last published in the **Federal Register** on June 4, 2007, 72 FR 30816.

The amendments to the system will be effective as proposed at the end of the comment period (the comment period will end 30 days after the publication of this notice in the **Federal Register**), unless comments are received that would require a contrary determination. DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal Agencies collect, maintain, use, and disseminate individuals' personal information. The Privacy Act applies to records about individuals that are maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information about an individual is retrieved by the name or by some identifying number, symbol, or other identifying particular assigned to the individual. The Privacy Act defines an individual as a United States citizen or lawful permanent resident. As a matter of policy, DOI extends administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of
