Program experimental radio licenses are available to colleges, universities, research laboratories, manufacturers of radio frequency equipment, manufacturers that integrate radio frequency equipment into their end products, and medical research institutions.
- **Medical Program Experimental Radio License**—This type of license is issued to hospitals and health care institutions that demonstrate expertise in testing and operation of experimental medical devices that use wireless telecommunications technology or communications functions in clinical trials for diagnosis, treatment, or patient monitoring.
- **Compliance testing experimental radio license**—This type of license will be issued to laboratories recognized by the FCC to perform:

 - (ii) Testing of radio frequency equipment in an Open Area Test Site.

To accomplish this transition, the Commission will update the current "Experimental Licensing Radio" electronic filing system. The existing

Nature and Extent of Confidentiality: There is no assurance of confidentiality provided to respondents concerning this information collection. However, respondents may request materials or information submitted to the Commission or to the Administrator be withheld from public inspection under 47 CFR 0.459 of the FCC's rules.

Needs and Uses: The Commission seeks to revise OMB 3060-0806 to conform this information collection to the program changes set forth in the *Second Report and Order and Order on Reconsideration (Second E-Rate Modernization Order)* (WC Docket No. 13-184, WC Docket No. 10-90, FCC 14-189; 80 FR 5961, February 4, 2015).

Collection of the information on FCC Forms 470 and 471 is necessary so that the Commission and the Universal Service Administrative Company (USAC) have sufficient information to determine if entities are eligible for funding pursuant to the schools and libraries support mechanism (the E-rate program), to determine if entities are complying with the Commission's rules, and to prevent waste, fraud, and abuse. In addition, the information is necessary for the Commission to evaluate the extent to which the E-rate program is meeting the statutory objectives specified in section 254(h) of the 1996 Act, and the Commission's own performance goals established in the *Report and Order and Further Notice of Proposed Rulemaking (E-rate Modernization Order)* (WC Docket No. 13-184, FCC 14-99; 79 FR 49160, August 19, 2014) and *Second E-rate Modernization Order*. This information collection is being revised to modify FCC Form 471 pursuant to program and rule changes in the *Second E-rate Modernization Order* and to accommodate USAC's new online portal as well as the requirement that all FCC Forms 471 be electronically filed. On June 22, 2015, OMB approved an emergency request to revise OMB 3060-0806 which included revisions to the FCC Form 470 only. This revision does not propose changes to the FCC Form 470 but does seek to extend the six-month emergency extension to the full three years.
