

survey year. At the first household visit, the surveyor explains the survey purposes and invites household participation. The surveyor returns at the end of the season of most harvest and at the end of the two other seasons combined to help the household complete the harvest report form.

We have designed the survey methods to streamline procedures and reduce respondent burden. We plan to use two forms for household participation:

- FWS Form 3–2380 (Tracking Sheet and Household Consent). The surveyor visits each household selected to participate in the survey to provide information on the objectives and to obtain household consent to participate.

The surveyor uses this form to record consent and track subsequent visits for completion of harvest reports.

- FWS Forms 3–2381–1, 3–2381–2, 3–2381–3, and 3–2381–4 (Harvest Report). The Harvest Report has drawings of bird species most commonly available for harvest in the different regions of Alaska, with fields for writing down the numbers of birds and eggs taken. There are four versions of this form: Interior Alaska, North Slope, Southern Coastal Alaska, and Western Alaska. This form has a sheet for each season surveyed, and each sheet has fields for the household code, community name, harvest year, date of completion, and comments.

Bureau of Land Management

[LLCAD01000 L12100000.MD0000 16XL1109AF]

Meeting of the California Desert District Advisory Council

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act of 1976 (FLPMA), and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management (BLM) California Desert District Advisory Council (DAC) will meet as indicated below.

DATES: The DAC will participate in a field tour of BLM-administered public lands on Friday, December 4, 2015, from 8:00 a.m. to 5:00 p.m. and will meet in formal session on Saturday, December 5, 2015, from 8:00 a.m. to 5:00 p.m. in El Centro, California. Members of the public are welcome. They must provide their own transportation, meals and beverages. Final agendas for the Friday field trip and the Saturday public meeting, along with the Saturday meeting location, will be posted on the DAC Web page at <http://www.blm.gov/ca/st/en/info/rac/dac.html> when finalized.

FOR FURTHER INFORMATION CONTACT: Stephen Razo, BLM California Desert District External Affairs, 1-951-697-5217. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individuals. You will receive a reply during normal hours.

SUPPLEMENTARY INFORMATION: All DAC meetings are open to the public. The 15-member council advises the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management on BLM-administered lands in the California desert. Public comment for items not on the agenda will be scheduled at the beginning of the meeting Saturday morning. Time for public comment is made available by the council chairman during the presentation of various agenda items, and is scheduled at the end of the meeting for topics not on the agenda.

While the Saturday meeting is tentatively scheduled from 8:00 a.m. to 5:00 p.m., the meeting could conclude prior to 5:00 p.m. should the council conclude its presentations and discussions. Therefore, members of the public interested in a particular agenda item or discussion should schedule their arrival accordingly. Agenda for the Saturday meeting will include updates by council members, the BLM California Desert District Manager, five Field Managers, and council subgroups. Focus topics for the meeting will include

renewable energy, Salton Sea, and geothermal. Written comments may be filed in advance of the meeting for the California Desert District Advisory Council, c/o Bureau of Land Management, External Affairs, 22835 Calle San Juan de Los Lagos, Moreno Valley, CA 92553. Written comments also are accepted at the time of the meeting and, if copies are provided to the recorder, will be incorporated into the minutes.

Dated: November 23, 2015.

National Park Service

[NPS-SER-EVER-19669]; [PPSESEROC3, PPMPSAS1Y.YP0000]

Final Environmental Impact Statement for the Acquisition of Florida Power & Light Company Land in the East Everglades Expansion Area

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The National Park Service (NPS) announces the availability of the Final Environmental Impact Statement (EIS) for the acquisition of Florida Power & Light Company (FPL) land in the East Everglades Expansion Area (EEEA), Everglades National Park, Florida.

DATES: The NPS will execute the Record of Decision (ROD) no sooner than 30 days following publication by the Environmental Protection Agency of its Notice of Availability of the Final EIS in the **Federal Register**.

ADDRESSES: Electronic copies of the Final EIS will be available online at <http://parkplanning.nps/ever>. A limited number of compact disks and printed copies of the Final EIS will be made available at Everglades National Park Headquarters, Everglades National Park, 40001 State Highway 9336, Homestead, Florida 33034-6733.

FOR FURTHER INFORMATION CONTACT: Brien Culhane, Everglades National Park, 40001 State Road 9336, Homestead, FL 33034-6733 or by telephone at (305) 242-7717.

SUPPLEMENTARY INFORMATION: The Final EIS addresses alternatives for NPS acquisition of existing FPL land located within the park, or of a sufficient interest in the property, to facilitate hydrologic and ecologic restoration of the park and the Everglades ecosystem.

The acquisition of the existing FPL parcel is needed to support the goals of restoring the Northeast Shark River Slough and to fulfill the purposes of the Comprehensive Everglades Restoration Plan. Acquisition of land within the EEEA through an exchange of lands with FPL is legally authorized by Public Law 111-11 (March 30, 2009).

The Final EIS describes five alternatives. The Final EIS addresses the potential impacts from the acquisition of FPL land in the park, as well as the indirect impacts that could result from the subsequent construction and operation of transmission lines, which could be built either inside or outside the park as a result of the land acquisition alternative selected. The following describes each of the alternatives included in the Final EIS:

Alternative 1a, No NPS Action—No FPL Construction (environmental baseline): The NPS would not take action to acquire FPL property within the park. This alternative assumes that FPL would not construct transmission lines on its existing land in the park, in the exchange corridor, or in any area outside the park.

Alternative 1b, No NPS Action—FPL Construction in the Park: the NPS would not take action to acquire FPL property within the park, the same as alternative 1a, but this alternative assumes that FPL would construct transmission lines on its existing land in the park.

Alternative 2, NPS Acquisition of FPL Land: the NPS would acquire the FPL property by purchase or through the exercise of eminent domain authority by the United States. This alternative would result in an increase of 320 acres of NPS-owned land within the authorized boundary of the park and would allow for flowage of water on this property. This alternative assumes that FPL would likely acquire a replacement corridor east of the existing park boundary within or adjacent to the FPL and Miami-Dade Limestone Products Association (MDLPA) West Consensus Corridor to meet its transmission needs, and the transmission lines would be built outside the park. Alternative 2 is the environmentally preferable alternative.

Alternative 3 (NPS Preferred Alternative), Fee for Fee Land Exchange: the NPS would acquire fee title to the FPL property through an exchange for park property, as authorized by the exchange legislation. NPS land conveyed to FPL (the “exchange corridor”) would consist of 260 acres along 6.5 miles of the eastern boundary of the EEEA. The NPS would also convey to FPL a 90-foot-wide perpetual
