The FCC is responsible for the regulation of both authorized radio services and devices that can cause interference. The FCC, working in

conjunction with U.S. Customs and Border Protection (CBP), is responsible for ensuring that radio frequency devices imported into the United States are properly authorized. FCC Form 740 must be completed for each radio frequency device which is imported into the United States, and is used to keep non-compliant devices from being distributed to the general public, thereby reducing the potential for harmful interference being caused to authorized communications. FCC Form 740 is submitted to CBP electronically or, in a few cases, in paper format. The FCC Form 740 is not submitted to the Federal Communications Commission. FCC works with the CBP to resolve issues related to the importation of unauthorized radio frequency devices, and can issue fines for violation of its rules.

This information collection extension does not affect the ongoing rulemaking in ET Docket 15-170, which includes proposed rules that would modify or eliminate FCC Form 740.

Abstract: Regulation II implements, among other things, standards for assessing whether interchange transaction fees for electronic debit transactions are reasonable and proportional to the cost incurred by the issuer with respect to the transaction, as required by section 920 of the Electronic Fund Transfer Act. The regulation sets a cap of 21 cents plus 5 basis points of the transaction's value on interchange transaction fees of covered issuers.

Regulation II allows adjustments to debit card interchange transaction fees to make an allowance for fraud-prevention costs incurred by issuers. The regulation permits an issuer to receive or charge an amount of no more than 1 cent per transaction in addition to its interchange transaction fee if the issuer develops and implements policies and procedures that are reasonably designed to take effective steps to reduce the occurrence of, and costs to all parties from, fraudulent electronic debit transactions. An issuer must notify its payment card networks annually that it complies with the Federal Reserve's standards for the fraud-prevention adjustment.

Regulation II requires issuers to retain evidence of compliance with the requirements imposed for a period of not less than five years after the end of the calendar year in which the electronic debit transaction occurred.

Current Actions: On September 15, 2015 the Federal Reserve published a notice in the **Federal Register** (80 FR 55360) requesting public comment for 60 days on the extension, without revision, of the Recordkeeping and
