

notification reports, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are also required semiannually.

Form Numbers: None.

Respondents/affected entities:

Beverage can surface coating facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart WW).

Estimated number of respondents: 48 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 5,190 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$623,000 (per year), which includes \$101,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden from the most recently approved ICR. The increase in respondent labor hour is caused by a change in assumption; in this ICR, we assume all existing sources will take some time each year to re-familiarize themselves with the rule requirements. The small increase in the total O&M cost is due to rounding; the total estimated costs have been rounded to three significant digits in this ICR.

subpart EE. Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are also required semiannually.

Form Numbers: None.

Respondents/affected entities: Metal furniture surface coating facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart EE).

Estimated number of respondents: 400 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 56,500 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$6,530,000 (per year), includes \$840,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent labor hours in this ICR compared to the previous ICR. This is not due to any program changes. The small increase occurred because we assume all existing respondents will take some time to re-familiarize themselves with the regulatory requirements each year. There is also an increase in the estimated labor costs due to use of more updated hourly labor rates.

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the

following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The Commission has granted AT&T, Verizon, legacy Qwest, and other similarly-situated carriers forbearance from FCC Form 492-A. See Petition of AT&T Inc. for Forbearance under 47 U.S.C. 160 from Enforcement of Certain of the Commission's Cost Assignment Rules, WC Docket Nos. 07-21, 05-342, Memorandum Opinion and Order, 23 FCC Rcd 7302 (2008) (AT&T Cost Assignment Forbearance Order). However, one reporting company purchased a substantial number of smaller entities and converted them to rate-of-return carriers while a second company made several acquisitions.
