DEPARTMENT OF EDUCATION

Privacy Act of 1974; Computer Matching Program Between the Department of Education (ED) and the Social Security Administration (SSA)

AGENCY: Department of Education.

ACTION: Notice.

SUMMARY: Pursuant to the Privacy Act of 1974, as amended by the Computer Matching and Privacy Protection Act of 1988 and the Computer Matching and Privacy Protections Amendments of 1990 (Privacy Act), and Office of Management and Budget (OMB) guidance on the conduct of computer matching programs, notice is hereby given of the renewal of the computer matching program between ED (recipient agency) and the SSA (source agency). This renewal of the computer matching program will become effective as explained in paragraph 5.

DATES:

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, as amended (5 U.S.C. 552a) OMB Final Guidance Interpreting the Provisions of Public Law 100–503, the Computer Matching and Privacy Protection Act of 1988, published in the **Federal Register** on June 19, 1989 (54 FR 25818), and OMB Circular No. A–130, Transmittal Memorandum #4, Management of Federal Information Resources (November 28, 2000), we provide the following information:

1. Names of Participating Agencies.

The U.S. Department of Education and the Social Security Administration.

2. Purpose of the Match.

The purpose of this matching program between ED and SSA is to assist the Secretary of Education with verification of immigration status and Social Security numbers (SSNs) under 20 U.S.C. 1091(g) and (p). SSA will verify the issuance of an SSN to, and will confirm the citizenship status of, those students and parents applying for financial assistance programs authorized under title IV of the Higher

Education Act of 1965, as amended (HEA). Verification of this information by SSA will help ED satisfy its obligation to ensure that individuals applying for financial assistance meet eligibility requirements imposed by the HEA.

Verification by this computer matching program effectuates the purpose of the HEA because it provides an efficient and comprehensive method of verifying the accuracy of each individual's SSN and claim to a citizenship status that permits that individual to qualify for title IV, HEA assistance.

3. Authority for Conducting the Matching Program.

ED is authorized to participate in the matching program under sections 428B(f) (20 U.S.C. 1078–2(f)), 483(a)(12) (20 U.S.C. 1090(a)(12)), 484(g) (20 U.S.C. 1091(g)), and 484(p) (20 U.S.C. 1091(p)) of the HEA.

SSA is authorized to participate in the matching program under section 1106(a) of the Social Security Act (42 U.S.C. 1306(a)) and the regulations promulgated pursuant to that section (20 CFR part 401).

4. Categories of Records and Individuals Covered by the Match.

ED's system of records entitled "Federal Student Aid Application File" (18–11–01), which contains the information to determine an applicant's eligibility for Federal student financial assistance, and ED's system of records entitled "Person Authentication Service (PAS)" (18–11–12), which contains the applicant's information to receive PAS Credentials, a user ID and password, will be matched against SSA's Master Files of Social Security Number Holders and SSN Applications System, SSA/OS, 60–0058, which maintains records about each individual who has applied for, and obtained an, SSN.

5. Effective Date of the Matching Program.

The matching program will be effective on the latest of the following three dates: (a) April 10, 2016; (b) 30 days after notice of the matching program has been published in the **Federal Register**, as required by 5 U.S.C. 552a(e)(12); or (c) 40 days after a report concerning the matching program has been transmitted, as required by 5 U.S.C. 552a(r), to OMB and the U.S. House Committee on Oversight and Government Reform, and the U.S. Senate Committee on Homeland Security and Governmental Affairs, unless OMB waives 10 or fewer days of this 40-day review period for compelling reasons, in which case, 30 days plus whatever number of the 10 days that OMB did not waive from the

date of the transmittal of the report to OMB and Congress.

The matching program will continue for 18 months after the effective date and may be extended for an additional 12 months thereafter, if the conditions specified in 5 U.S.C. 552a(o)(2)(D) have been met.

6. Address for Receipt of Public Comments or Inquiries.

Individuals wishing to comment on this matching program, or to obtain additional information about the program, including requesting a copy of the computer matching agreement between ED and SSA, should contact Marya Dennis, Management and Program Analyst, U.S. Department of Education, Union Center Plaza, 830 First Street NE., Washington, DC 20202-5454. PJM Interconnection, L.L.C.; Notice Inviting Post-Technical Conference Comments

On February 4, 2016, Federal Energy Regulatory Commission (Commission) staff conducted a technical conference concerning PJM Interconnection, L.L.C.'s (PJM) existing and proposed Auction Revenue Rights (ARR) and Financial Transmission Rights (FTR) tariff provisions. All interested persons are invited to file post-technical conference comments on PJM's filings and the topics discussed during the technical conference, including those indicated below.

Regarding PJM's filing and proposed changes, specifically:

- Whether PJM's conservative modeling of outages that limited the allocation of Stage 1B ARRs have resulted in an inequitable cost shift, and please explain why.

- PJM proposes to eliminate portfolio netting. Comment on the current practice of netting positively valued FTRs against negatively valued FTRs within an FTR holder's portfolio. Do the current tariff provisions on netting work to protect the markets against the potential exercise of manipulation, and if so, how? If netting is eliminated and causes the potential for the exercise of manipulation, what measures would need to be put into place to prevent potential market manipulation? Would allocating surplus funds to load rather than to FTR holders, or carrying surplus funds forward to fund any future revenue inadequacy be ways of addressing potential manipulation?

- The appropriateness of using the 1.5 percent adder for all zones, regardless of the actual zonal load growth rate and negative load growth projections for some areas; and the appropriateness of conducting the 10-year study with different growth rates as a sensitivity study, as is done for other RTEP studies. Is the cost of building transmission as a result of the 1.5 percent adder justified by the benefit of being able to accommodate the current allocations in Stage 1A?

Regarding PJM's proposed solutions in the context of its current tariff, please discuss if there are other solutions to consider. Specifically, please comment on:

- If infeasible Stage 1A ARRs should continue to be awarded and treated as they are today.
