

and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Hospital, medical, infectious waste incinerators.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart Ce and Part 62, Subpart HHH).

Estimated number of respondents: 58 (total).

Frequency of response: Initially, occasionally, semiannually and annually.

Total estimated burden: 38,800 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$4,370,000 (per year), includes \$479,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an overall decrease in the respondent and Agency burden currently identified in the OMB Inventory of Approved Burdens due to a decrease in the respondent universe since the previous ICR. Based on the 2013 Agency analysis, 21 HMIWI units (16 privately owned, 1 federally owned, and 4 state owned) have been shut down over the past several years. The revised estimate results in a decreased in respondent labor hours, number of responses, and capital/O&M costs.

However, there is a slight adjustment increase in respondent hours for States due to a change in assumption. In this ICR, we assume all respondents will take some time to re-familiarize themselves with the regulatory requirements.

Courtney Kerwin,

Acting Director, Collection Strategies Division.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: School Integrated Pest Management Awards Program.

ICR number: EPA ICR No. 2531.01.

OMB control number: OMB Control No. 2070-NEW.

ICR status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This new ICR covers information collection activities associated with EPA's award program that encourages the use of Integrated Pest Management (IPM) as the preferred approach to pest control in the nation's schools. IPM is a smart, sensible, and sustainable approach to pest control that emphasizes the remediation of pest conducive conditions. IPM combines a variety of pest management practices to provide effective, economical pest control with the least possible hazard to people, property, and the environment. These practices involve exclusion of pests, maintenance of sanitation, and the judicious use of pesticides. The EPA's statutory authorities for this collection of information are set forth in the Pollution Prevention Act of 1990,

the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and the Food Quality Protection Act (FQPA) of 1996.

The Agency's IPM implementation efforts are based on a wholesale approach aimed at kindergarten through 12th grade public and Tribal schools. The Agency intends to use the information collected through this ICR to encourage school districts to implement IPM programs and to recognize those that have attained a notable level of success. Because IPM implementation occurs along a continuum, the School IPM (SIPM) incentive program will recognize each milestone step a school district must take to begin, grow, and sustain an IPM program.

This program has five awards categories—*Great Start, Leadership, Excellence, Sustained Excellence*, and *Connector*. The first four categories are stepwise levels that are reflective of the effort, experience, and, ultimately, success that results from implementing EPA-recommended IPM tactics that protect human health and the environment. Schools with pest infestations are not only exposed to potential harm to health and property, but also to stigmatization. The School IPM recognition program will give districts across the nation the opportunity to receive positive reinforcement through public recognition of their efforts in implementing pest prevention and management strategies.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 16.5 hours annually per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are school districts, or other entities represent by them.

Estimated total number of potential respondents: Annual average of 53.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: One per application.

Estimated total annual burden hours: 870 hours.

Estimated total annual costs: \$72,000. This includes an estimated burden cost of \$72,000 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: March 4, 2014.

James Jones,

Assistant Administrator, Office of Chemical Safety and Pollution Prevention.
