ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2015-0072; FRL-9944-25-OAR]

Release of the Draft Integrated Review Plan for the National Ambient Air Quality Standards for Particulate Matter

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability and public comment period.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability for public review of the draft document titled *Draft Integrated Review Plan for the National Ambient Air Quality Standards for Particulate Matter* (draft IRP). The draft IRP contains the current plans for the review of the air quality criteria for particulate matter (PM) and the primary and secondary national ambient air quality standards (NAAQS) for PM. The primary PM NAAQS are set to protect the public health and the secondary PM NAAQS are set to protect the public welfare from exposures to PM in ambient air.

DATES: Comments should be received on or before June 23, 2016.

ADDRESSES: The draft IRP will be available primarily via the Internet at https://www3.epa.gov/ttn/naaqs/standards/pm/s_pm_index.html. Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2015-0072, to the *Federal eRulemaking Portal*: <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or withdrawn. The EPA may publish any

comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information for which disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the Web, Cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Dr. Scott Jenkins, Office of Air Quality Planning and Standards (mail code C504-06), U.S. Environmental Protection Agency, Research Triangle Park, NC 27711; telephone number: 919-541-1167; fax number: 919-541-5315; email: jenkins.scott@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. What should I consider as I prepare my comments for the EPA?

1. *Submitting CBI.* Do not submit this information to EPA through <http://www.regulations.gov> or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing your Comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions. The agency may ask you to respond to specific questions or organize comments by reference a Code of Federal Regulations (CFR) part or section number.

- Explain why you agree or disagree; suggest alternative and substitute language for your requested changes.

- Describe any assumption and provide any technical information and/or data that you used.

- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

- Provide specific examples to illustrate your concerns and suggest alternatives.

- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

- Make sure to submit your comments by the comment period deadline identified.

II. Information Specific to This Document

Two sections of the Clean Air Act (CAA) govern the establishment and revision of the NAAQS. Section 108 (42 U.S.C. 7408) directs the Administrator to identify and list certain air pollutants and then to issue air quality criteria for those pollutants. The Administrator is to list those air pollutants that in his or her “judgment, cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare;” “the presence of which in the ambient air results from numerous or diverse mobile or stationary sources;” and “for which . . . [the Administrator] plans to issue air quality criteria. . . .” Air quality criteria are intended to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. . . .” (42 U.S.C. 7408(b)). Under section 109 (42 U.S.C. 7409), the EPA establishes primary (health-based) and secondary (welfare-based) NAAQS for pollutants for which air quality criteria are issued. Section 109(d) requires periodic review and, if appropriate, revision of existing air quality criteria. Revised air quality criteria reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. The EPA is also required to periodically review and, if appropriate, revise the NAAQS based on the revised criteria. Section 109(d)(2) requires that an independent scientific review committee “shall complete a review of the criteria . . . and the national primary and secondary ambient air quality standards . . . and shall recommend to the Administrator any new . . . standards and revisions of the existing criteria and standards as may be appropriate. . . .” Since the early

1980s, this independent review function has been performed by the Clean Air Scientific Advisory Committee (CASAC).

Presently, the EPA is reviewing the criteria and the primary and secondary NAAQS for PM.¹ The draft IRP being announced today has been developed as part of the planning phase for the review. This phase began with a science policy workshop to identify issues and questions to frame the review.² Drawing from the workshop discussions, the draft IRP was prepared jointly by the EPA's National Center for Environmental Assessment, within the Office of Research and Development, and the EPA's Office of Air Quality Planning and Standards, within the Office of Air and Radiation. The draft IRP presents the current plan and specifies the anticipated schedule for the entire review, the process for conducting the review, and the key policy-relevant science issues that will guide the review. The draft IRP will be reviewed by CASAC at a teleconference on May 23, 2016.³ The final IRP will include consideration of CASAC advice and public comments received on the draft IRP.

Dated: April 14, 2016.

Stephen Page,

Director, Office of Air Quality Planning and Standards.

The *File Formats for Reverse Auction Public Notice* announces the release of specifications for the data file formats in which information related to the results of bidding in Auction 1001 will be made available to qualified bidders via the Auction System. The Public Notice also announces the release of sample data files pertaining to a hypothetical reverse auction bidder's stations, bids, and the results of its bidding. The specifications and sample data files, which are for illustrative purposes only, are available on the Auction 1001 Web site (www.fcc.gov/auctions/1001) in the Data section.

The *File Formats for Forward Auction Clock Phase Public Notice* provides specifications for the data file formats in which information related to the results of bidding in the clock phase of Auction 1002 will be made available to qualified bidders via the Auction System. Sample data files, which are for illustrative purposes only, are available on the Auction 1002 Web site (www.fcc.gov/auctions/1002) in the Data section.

The *File Formats for Forward Auction Assignment Phase Public Notice* announces the release of specifications for the data file formats in which information related to the results of bidding in the assignment phase of Auction 1002 will be made available to qualified bidders via the Auction System. Both the specifications and sample data files, which are for illustrative purposes only, are available on the Auction 1002 Web site (www.fcc.gov/auctions/1002) in the Data section.

The *Updated File Formats for Forward Auction Clock Phase and Additional Impairment Data Downloads Public Notice* announces the availability of updated data file formats and sample data files for the clock phase of Auction 1002. For those data files that are populated on a round-to-round basis, there will be a separate download file for each round of the auction rather than a file containing cumulative data for all rounds. The *Public Notice* also announces that a bid upload feature will be available to forward auction bidders in all rounds of the auction rather than just the initial round of the auction. Finally, the *Public Notice* announces the
