SUPPLEMENTARY INFORMATION:

I. Background

Each Indian and Native American (INA) grantee receiving WIOA, Section 166 funds (non-Pub. L. 102–477 grantees) to administer the Comprehensive Services Program (CSP) is required to submit a CSP Report (ETA Form 9084) on a quarterly basis. Grantees receiving WIOA Section 166

Supplemental Youth Services Program (SYSP) funds (non-Pub. L. 102–477 grantees) currently submit a SYSP Report (ETA Form 9085) semi-annually. This request is to extend the existing ETA Form 9084 and 9085 report submitted each quarter, or semi-annually, by INA grantees. The only revision to the ETA 9085 is to increase the age range for youth to twenty-four years old per the WIOA.

ETA requires the collection and reporting of data on eligible persons served under the WIOA, Section 166 CSP and SYSP to assess the performance and delivery of services. The current ETA forms 9084 and 9085 expire on September 30, 2016. This request is to extend the instructions and forms currently used until such time when the WIOA Final Rule and policy guidance are issued. Subsequently, a revised Information Collection Request will be required to comply with the Final Rule. In the interim, ETA will continue to administer the INA programs under the Workforce Investment Act (WIA) Final Rule.

SUPPLEMENTARY INFORMATION:

I. Background

The Occupational Employment Statistics (OES) survey is a Federal/State establishment survey of wage and salary workers designed to produce data on current occupational employment and wages. OES survey data assist in the development of employment and training programs established by the 1998 Workforce Investment Act (WIA) and further reinforced by the Workforce Innovation and Opportunity Act (WIOA) and the Perkins Vocational Education Act of 1998.

The OES program operates a periodic mail survey of a sample of non-farm establishments conducted by all fifty States, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands. Over three-year periods, data on occupational employment and wages are collected by industry at the four-

and five-digit North American Industry Classification System (NAICS) levels. The Department of Labor uses OES data in the administration of the Foreign Labor Certification process under the Immigration Act of 1990.

II. Current Action

Office of Management and Budget clearance is being sought for the Occupational Employment Statistics (OES) program. Occupational employment data obtained by the OES survey are used to develop information regarding current and projected employment needs and job opportunities. These data assist in the development of State vocational education plans. OES wage data provide a significant source of information to support a number of different Federal, State, and local efforts.

As part of an ongoing effort to reduce respondent burden, OES has several electronic submission options which are available to respondents. Respondents have the ability to submit data by email, or fillable online forms. In many cases, a respondent can submit existing payroll records and would not need to submit a survey form.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
