

DEPARTMENT OF DEFENSE**Department of the Army, Corps of Engineers****Notice of Availability of the Final Environmental Impact Statement (FEIS) for the Installation of a Terminal Groin Structure at the Eastern End of Ocean Isle Beach, Extending Into the Atlantic Ocean, West of Shallotte Inlet (Brunswick County, NC)**

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: The U.S. Army Corps of Engineers (USACE), Wilmington District, Wilmington Regulatory Field Office has received a request for Department of the Army authorization, pursuant to Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbor Act, from the Town of Ocean Isle Beach to install a terminal groin structure on the east side of Ocean Isle Beach, extending into the Atlantic Ocean, just west of Shallotte Inlet. The structure will be designed to function in concert with the Federal storm damage reduction project.

DATES: The public commenting period on the FEIS will end at 5 p.m., May 31, 2016.

ADDRESSES: Copies of comments and questions regarding the FEIS may be submitted to: U.S. Army Corps of Engineers (Corps), Wilmington District, Regulatory Division, c/o Mr. Tyler Crumbley. ATTN: File Number SAW-2011-01241, 69 Darlington Avenue, Wilmington, NC 28403.

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and FEIS can be directed to Mr. Tyler Crumbley, Wilmington Regulatory Field Office, telephone: (910) 251-4170, facsimile (910) 251-4025, or email at tyler.crumbley@usace.army.mil.

SUPPLEMENTARY INFORMATION:

1. *Project Description.* The Town of Ocean Isle Beach is seeking Federal and State authorization for construction of a terminal groin, and associated beach fillet with required maintenance, to be located at the eastern end of Ocean Isle Beach. The proposed terminal groin and beach fillet is the Town's preferred alternative (#5) of five alternatives considered in this document. Under the preferred alternative, the terminal groin would extend 750-foot seaward, and 300-foot shoreward, of the April 2007 mean high water shoreline. The seaward section would be constructed with loosely placed armor stone to facilitate the movement of sand past the structure. The shoreward anchorage

section would be constructed with sheet pile which would have a top elevation varying from +4.9 feet NAVD to +4.5 feet NAVD.

The proposed terminal groin is one of four such structures approved by the General Assembly to be constructed in North Carolina following passing of Senate Bill (SB) 110. The U.S. Army Corps of Engineers (USACE) determined that there is sufficient information to conclude that the project would result in significant adverse impact on the human environment, and has prepared an FEIS pursuant to the National Environmental Policy Act (NEPA) to evaluate the environmental effects of the alternatives considering the project's purpose and need. The purpose and need of the proposed terminal groin and beach fillet is to provide shoreline protection that would mitigate chronic erosion on the eastern portion on the Town's oceanfront shoreline so as to preserve the integrity of its infrastructure, provide protection to existing development, and ensure the continued use of the oceanfront beach along this area.

2. *Issues.* There are several potential environmental and public interest issues that are addressed in the FEIS. Public interest issues include, but are not limited to, the following: public safety, aesthetics, recreation, navigation, infrastructure, solid waste, economics, and noise pollution. Additional issues may be identified during the public review process and addressed in the Record of Decision (ROD). Issues initially identified as potentially significant include:

- a. Potential impacts to marine biological resources (benthic organisms, passageway for fish and other marine life) and Essential Fish Habitat.
- b. Potential impacts to threatened and endangered marine mammals, reptiles, birds, fish, and plants.
- c. Potential for effects/changes to Ocean Isle beach, Holden Beach, Sunset Beach, and Shallotte inlet, respectively.
- d. Potential impacts to navigation.
- e. Potential effects on regional sand sources and sand management practices, including the Federal (Ocean Isle Beach storm damage reduction) project.
- f. Potential effects of shoreline protection.
- g. Potential impacts on public health and safety.
- h. Potential impacts to recreational and commercial fishing.
- i. Potential impacts to cultural resources.
- j. Potential impacts to future dredging and nourishment activities.

3. *Alternatives.* Several alternatives are being considered for the proposed

project. These alternatives, including the No Action alternative, were further formulated and developed during the scoping process and considered in the FEIS. A summary of alternatives under consideration are provided below:

- a. Alternative 1—No Action (Continue Current Management Practices)
- b. Alternative 2—Abandon/Retreat
- c. Alternative 3—Beach Fill Only (Including Federal Project)
- d. Alternative 4—Shallotte Inlet Bar Channel Realignment with Beach Fill (Including Federal Project)
- e. Alternative 5—Terminal Groin with Beach Fill (Including Federal Project)/Applicants Preferred Alternative

4. *Scoping Process.* Project Review Team meetings were held to receive comments and assess concerns regarding the appropriate scope and preparation of the FEIS. Federal, state, and local agencies and other interested organizations and persons participated in these Project Review Team meetings.

The Corps has completed consultation with the United States Fish and Wildlife Service and the National Marine Fisheries Service pursuant to the Endangered Species Act and the Fish and Wildlife Coordination Act. The Corps has also completed consultation with the National Marine Fisheries Service pursuant to the Magnuson-Stevens Act and Endangered Species Act. The Corps has coordinated with the State Department of Cultural Resources pursuant to Section 106 of the National Historic Preservation Act.

Potential water quality concerns have been addressed pursuant to Section 401 of the Clean Water Act through coordination with the North Carolina Divisions of Coastal Management (DCM) and Water Resources (DWR). This coordination will insure consistency with the Coastal Zone Management Act and project compliance with water quality standards. The Corps has coordinated closely with DCM in the development of the FEIS to ensure the process complies with State Environmental Policy Act (SEPA) requirements, as well as the NEPA requirements. The FEIS has been designed to consolidate both NEPA and SEPA processes to eliminate duplications.

5. *Evaluation/Release of the Draft EIS (DEIS).* The DEIS was released on January 23, 2015, and a Public Hearing was held on February 24, 2015. Comments received from the DEIS have been addressed and made part of the FEIS. No less than 30 days from the date of release of the FEIS, the Corps will prepare a ROD to support a permit decision on the applicant's preferred

alternative in accordance with NEPA and our program regulations. The ROD will address the Public Interest Review criteria, the Section 404(B)1 Guidelines (used to implement Section 404 of the Clean Water Act), and related Federal Laws (*i.e.*, Endangered Species Act, National Historic Preservation Act, and the Magnuson Stevens Fisheries Conservation and Management Act) in addition to applicable Executive Orders, and other regulatory policies.

6. *Availability of the FEIS.* This NOA announces that the FEIS has been released and will be circulated for 30 days from the date of this NOA. The FEIS for the proposal can be found at the following link under Major Projects/Town of Ocean Isle Terminal Groin Project: <http://www.saw.usace.army.mil/Missions/RegulatoryPermitProgram/MajorProjects>.

Dated: April 20, 2016.

Scott McLendon,
Chief, Regulatory Division.

Combined Notice of Filings #2

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER13-1488-007.

Applicants: Quantum Pasco Power, LP.

Description: Compliance filing: Quantum Pasco Power, LP Revised Electric Tariff to be effective 4/23/2016.
Filed Date: 4/22/16.

Accession Number: 20160422-5146.

Comments Due: 5 p.m. ET 5/13/16.

Docket Numbers: ER16-463-001.

Applicants: Midcontinent Independent System Operator, Inc., Ameren Illinois Company.

Description: Compliance filing: 2016-04-22_SA 2765 MidAmerican-Ameren Illinois 1st Rev TIA Compliance to be effective 2/18/2016.

Filed Date: 4/22/16.

Accession Number: 20160422-5091.

Comments Due: 5 p.m. ET 5/13/16.

Docket Numbers: ER16-920-001.

Applicants: Southwestern Public Service Company.

Description: Compliance filing: 4-22-16_ER13-1455 Comp Filing to be effective 4/20/2012.

Filed Date: 4/22/16.

Accession Number: 20160422-5144.

Comments Due: 5 p.m. ET 5/13/16.

Docket Numbers: ER16-1484-000.

Applicants: Goshen Phase II LLC.

Description: § 205(d) Rate Filing: Revised Market-Based Rate Tariff to be effective 6/22/2016.

Filed Date: 4/22/16.

Accession Number: 20160422-5074.

Comments Due: 5 p.m. ET 5/13/16.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER16-1465-000]

Palmco Power MI LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Palmco Power MI LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is May 11, 2016.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email
