

The United States, on behalf of the U.S. Environmental Protection Agency ("EPA"), and the State of Tennessee, on behalf of the Tennessee Department of Environment and Conservation ("TDEC"), filed this lawsuit under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The complaint requests performance of response actions to address Operable Units 3 and 5 of the Copper Basin Mining District Superfund Site in Polk County, Tennessee, recovery of costs that the United States has incurred responding to releases of hazardous substances at the site, and recovery of costs that the United States and the State of Tennessee will incur overseeing implementation of the remedies at Operable Units 3 and 5 at the site.

The proposed consent decrees would resolve the claims alleged in the complaint and provides for implementation of remedies at Operable Units 3 and 5 that EPA and TDEC will oversee. The proposed Operable Unit 3 consent decree requires OXY USA Inc. to implement the remedy selected by EPA for Operable Unit 3, pay EPA \$10,779,509 in unreimbursed response costs at the site, and to pay future response costs incurred by EPA and TDEC at Operable Unit 3. The proposed Operable Unit 3 consent decree also includes the United States Departments of the Army, Commerce, and Defense as settling federal agencies as the successor to the former federal government owner and operator of the site, and provides that the United States, on behalf of those agencies, will reimburse OXY USA Inc. for a portion of its costs incurred at the site.

The proposed Operable Unit 5 consent decree requires OXY USA Inc. to implement the remedy selected by EPA for Operable Unit 5, and to pay future response costs incurred by EPA and TDEC at Operable Unit 5. The proposed Operable Unit 5 consent decree also includes the Tennessee Valley Authority as an implementing federal agency that will participate in the implementation of the remedial action selected by EPA.

The publication of this notice opens a period for public comment on the consent decrees. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and State of Tennessee v. OXY USA Inc.*, D.J. Ref. No. 90–11–3–10404/1 (Operable Unit 3 consent decree) or D.J. Ref. No. 90–11–3–10404 (Operable Unit 5 consent decree). Comments should specify whether they address the proposed Operable Unit 3

consent decree, the proposed Operable Unit 5 consent decree, or both. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

Michel Smyth by telephone at 202–693–4129, TTY 202–693–8064, (these are not toll-free numbers) or sending an email to DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Consumer Expenditure Surveys: Quarterly Interview and Diary. The BLS uses the Consumer Expenditure Surveys to gather information on expenditures, income, and other related subjects. These data are used periodically to update the national Consumer Price Index. In addition, the data are used by a variety of researchers in academia, government agencies, and the private sector. The data are collected from a national probability sample of households designed to represent the total civilian non-institutional population. This information collection has been classified as a revision, because of the

addition of the Incentives/Outlets test, elimination of the Proof of Concept Test and bounding interview, and the full implementation of a new sample. The Census Authorizing Statute and BLS Authorizing Statute authorize this information collection. *See* 13 U.S.C. 8b and 29 U.S.C. 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0050. The current approval is scheduled to expire on December 31, 2017; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 1, 2015 (80 FR 75135).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0050. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or

other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the American Time Use Survey-Eating and Health Supplement information collection. The Eating and Health module supplement includes questions about respondents' eating and drinking behaviors, food assistance participation, grocery and meal shopping, food preparation, and food sufficiency. It also includes questions on general health and physical exercise. Information collected in the supplement will be published as a public use data set to facilitate research on numerous topics, such as the association between eating patterns, body mass index, and obesity; time-use patterns of food assistance program participants and low-income nonparticipants; time-use patterns and eating and activity levels; and how time-use varies by health status. The supplement is asked of respondents immediately upon their completion of the American Time Use Survey. The supplement surveys individuals aged 15 and up from a nationally representative sample of approximately 2,100 sample households each month. The BLS Authorizing Statute authorizes this information collection. *See* 29 U.S.C. 1, 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject
