History and Description of the Remains

In 1844, human remains representing, at minimum, one individual (97-606-1270) were removed from a mound located near Detroit, Wayne County, MI. The human remains were removed by Lieutenant Montgomery C. Meigs during the construction of Fort Wayne by the Army Corps of Engineers. The area selected for the Fort was the site of a "prehistoric complex of earthworks, especially burial mounds" (Grosscup 1999: 332).

The Springwells Mound Group as it is known is represented by three mounds, the mound located near the Springwells Copper Works (Michigan site number WN-3), the Fort Wayne Mound (WN-1), and the Central Mound (WN-5) located just east of Fort Wayne. Another mound directly opposite (Carsten Mound) and the Great Mound at the mouth of the Rouge River probably relate to the

mounds at Springwells. These human remains likely originated from one of the three mounds located on or near Fort Wayne. The mounds date to early-late Late Woodland Periods. The human remains include the cranium and mandible of a single female estimated to be 35-50 years old.

Lt. Meigs sent the human remains to Dr. Samuel G. Morton for inclusion in his study of human crania prior to 1846. In 1853, Dr. Morton's collection, including the human remains described above, was purchased from Dr. Morton's estate and formally presented to the Academy of Natural Sciences of Philadelphia. In 1966, Dr. Morton's collection was loaned to the University of Pennsylvania Museum of Archaeology and Anthropology. In 1997, the collection was formally gifted to the University of Pennsylvania Museum. No known individuals were identified. No associated funerary objects are present.

Determinations Made by the University of Pennsylvania Museum of Archaeology and Anthropology

Officials of the University of Pennsylvania Museum of Archaeology and Anthropology have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice are Native American based on their examination by a physical anthropologist, their recovery from a known archeological site complex, museum documents, and published records.

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and any present-day Indian tribe.

- Treaties, Acts of Congress, or Executive Orders, indicate that the land from which the Native American human remains were removed is the aboriginal land of The Consulted Tribes and The Invited Tribes.

- Pursuant to 43 CFR 10.11(c)(1), the disposition of the human remains may be to The Consulted Tribes and The Invited Tribes.

Additional Requestors and Disposition

Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Dr. Julian Siggers,

University of Pennsylvania Museum of Archaeology and Anthropology, 3260 South Street, Philadelphia, PA 19104, telephone (215) 898-4050 by June 10, 2016. After that date, if no additional requestors have come forward, transfer of control of the human remains to The Consulted and Invited Tribes may proceed.

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Peabody Museum of Natural History, in consultation with the appropriate Indian tribes or Native Hawaiian organizations, has determined the cultural items listed in this notice meet the definition of unassociated funerary objects. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request to the Peabody Museum of Natural History. If no additional claimants come forward, transfer of control of the cultural items to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request with information in support of the claim to the Peabody Museum of Natural History at the address in this notice by June 10, 2016.

ADDRESSES: Professor David Skelly, Director, Yale Peabody Museum of Natural History, P.O. Box 208118, New

Haven, CT 06520-8118, telephone (203) 432-3752.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items under the control of the Peabody Museum of Natural History, Yale University, New Haven, CT that meet the definition of unassociated funerary objects under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American cultural items. The National Park Service is not responsible for the determinations in this notice.

History and Description of the Cultural Item(s)

In 1899, two cultural items were removed from Yakutat Bay in Yakutat Borough, AK, by a member of the 1899 Harriman Expedition. The items were donated to the Peabody Museum of Natural History by George Bird Grinnell in 1913. The two unassociated funerary objects are two whale bone war knives.

In June 2015, representatives from the Central Council of the Tlingit and Haida Indian Tribes of Alaska identified the knives as culturally affiliated to the Tlingit people. Peabody Museum of Natural History catalog records refine this affiliation to the Yakutat Tlingit Tribe. Through consultation, members of the Yakutat Tlingit Tribe have confirmed their culturally affiliation to the knives.

Determinations Made by the Peabody Museum of Natural History

Officials of the Peabody Museum of Natural History have determined that:

- Pursuant to 25 U.S.C. 3001(3)(B), the two cultural items described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the unassociated funerary objects and the Yakutat Tlingit Tribe.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice

that wish to claim these cultural items should submit a written request with information in support of the claim to Professor David Skelly, Director, Yale Peabody Museum of Natural History, P.O. Box 208118, New Haven, CT 06520-8118, telephone (203) 432-3752, by June 10, 2016. After that date, if no additional claimants have come forward, transfer of control of the unassociated funerary objects to the Yakutat Tlingit Tribe may proceed.

The Peabody Museum of Natural History is responsible for notifying the Yakutat Tlingit Tribe and the Central Council of the Tlingit and Haida Indian Tribes of Alaska that this notice has been published.
