SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 93 prohibit or restrict the importation of certain animals, birds, and poultry into the United States to prevent the introduction of communicable diseases of livestock and poultry. Subpart D of part 93 (§§ 93.400 through 93.436, referred to below as the regulations) governs the importation of ruminants; within the regulations, §§ 93.424 through 93.429 specifically address the importation of various ruminants from Mexico into the United States.

The regulations in paragraph (b)(1) of § 93.427 contain conditions for the importation of ruminants from regions of Mexico that we consider free from fever ticks (*Boophilus annulatus*). Regions of Mexico that we consider free from fever ticks are listed at <http://www.aphis.usda.gov/wps/portal/aphis/ourfocus/importexport>. Currently, the State of Sonora is the only region on this list.

Mexico has asked the Animal and Plant Health Inspection Service to recognize the State of Chihuahua, except the municipalities of Guadalupe y Calvo and Morelos, as a region free from fever ticks. In response to this request, we have prepared an evaluation of the fever tick status of this region. The evaluation concludes that the State of Chihuahua, excluding the municipalities of Guadalupe y Calvo and Morelos, is free from fever ticks, and that ruminants imported from the region pose a low risk of exposing ruminants within the United States to fever ticks.

We are making the evaluation available for public review and comment. The assessment is available on the Regulations.gov Web site (see

ADDRESSES above) or by contacting the person listed in this document under the heading **FOR FURTHER INFORMATION CONTACT**. After the close of the comment period, we will notify the public of our final determination regarding the status of the State of Chihuahua, excluding the municipalities of Guadalupe y Calvo and Morelos, for fever ticks.

May 6, 2016.

The Department of Agriculture has submitted the following information collection requirement(s) to Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; (4) ways to

minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by June 13, 2016 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20502. Rural Utilities Service

Title: 7 CFR 1730, Review Rating Summary.

OMB Control Number: 0572-0025.

Summary of Collection: The Rural Utilities Service (RUS) manages loan programs in accordance with the Rural Electrification Act (RE Act) of 1936, 7 U.S.C. 901 *et seq.*, as amended. An important part of safeguarding loan security is to see that RUS financed facilities are being responsible used, adequately operated, and adequately maintained. Future needs have to be anticipated to ensure that facilities will continue to produce revenue and loans will be repaid as required by the RUS mortgage. Regular periodic operations and maintenance (O&M) review can identify and correct inadequate O&M practices before they cause extensive harm to the system. Inadequate O&M practices can result in public safety hazards, increased power outages for consumers, added expense for emergency maintenance, and premature aging of the borrower's systems, which could increase the loan security risk to RUS.

Need and Use of the Information: RUS will collect information using form 300 Review Rate Summary to identify items that may be in need of additional

attention; to plan corrective actions when needed; to budget funds and manpower for needed work; and to initiate ongoing programs as necessary to avoid or minimize the need for "catch-up" programs.

Description of Respondents: Not-for-profit institutions; Business or other for-profit.

Number of Respondents: 208.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 832.

Charlene Parker,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF COMMERCE**Foreign-Trade Zones Board**

[B-30-2016]

Foreign-Trade Zone (FTZ) 125—South Bend, Indiana; Notification of Proposed Production Activity; LionsHead Specialty Tire & Wheel, LLC (Wheel Assemblies for Specialty Applications); Goshen, Indiana

LionsHead Specialty Tire & Wheel, LLC (LionsHead) submitted a notification of proposed production activity to the FTZ Board for its facility in Goshen, Indiana. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on May 3, 2016.

A separate application for usage-driven site designation at the LionsHead facility will be submitted and will be processed under Section 400.38 of the FTZ Board's regulations. The facility is used to produce wheel assemblies for specialty applications, including trailers and golf carts. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt LionsHead from customs duty payments on the foreign-status components used in export production. On its domestic sales, LionsHead would be able to choose the duty rates during customs entry procedures that apply to wheel assemblies for non-agricultural trailers, golf carts, farm feed tenders, grain wagons, all-terrain vehicles (ATVs), recreational vehicles (RVs), handling equipment, forklifts and other types of industrial lifting equipment
