

Overview of This Information Collection

1. *Type of information collection:* New information collection.

2. *The title of the form/collection:* Assessing the Potential Monetized Benefits of Captioning Web Content for Individuals Who Are Deaf or Hard of Hearing.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* Form Number: None.

Component: The applicable component within the Department of Justice is the Disability Rights Section in the Civil Rights Division.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Affected Public (Primary): Individuals who are deaf or hard of hearing will be asked to respond.

Affected Public (Other): None.

Abstract: DOJ's Civil Rights Division, Disability Rights Section (DRS), is requesting PRA approval of a new collection that would request information about the perceived monetary value of captioning on Web sites from individuals who are deaf or hard of hearing for the purpose of estimating the potential monetized benefits of captioning audio and video content on the Web. DRS is not suggesting that people with disabilities should be asked to pay for captioning; rather, it intends to ask individuals about the theoretical monetary value that they place on the captioning of audio and video Web content in order to estimate how highly they value captioning. The collection will also request additional information about how frequently individuals who are deaf or hard of hearing access audio content on Web sites, what type of audio content they access, how often this content is not captioned, how much additional time (if any) they spend trying to access content or information when the content is not captioned, and whether lack of captioning makes using the Internet more difficult. This information will enhance DRS's ability to monetize the benefits of any captioning requirements imposed by future rulemaking under the Americans with Disabilities Act (ADA) for individuals who are deaf or hard of hearing.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 1,070 respondents will complete the questions. It is estimated that an average of 10 minutes per respondent is needed to complete the questions. DRS

estimates that nearly all of the approximately 1,070 respondents will fully complete the questions.

6. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 178 hours. It is estimated that respondents will take an average of 10 minutes (1/6 of an hour) to complete the questions. The burden hours for collecting respondent data sum to 178.33 hours (1,070 respondents \times 1/6 hours = 178 and 1/3 hours).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Occupational Code Assignment information collection. Information collected on Form ETA–741, Occupational Code Assignment, is necessary to help occupational information users relate an occupational specialty or job title to an occupational code and title within the framework of the Occupational Information Network. The form helps provide occupational codes for jobs where duties have changed to the extent that the published information is no longer appropriate or the user is unable to classify the job on his or her own. This information collection has been classified as a revision because of minor revisions to the form and because of additional respondents from the American Apprenticeship grant competition. Wagner-Peyser Act section 15 authorizes this information collection. *See* 29 U.S.C. 491–1.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. The DOL obtains OMB approval for this information collection under Control Number 1205–0137. The current approval is scheduled to expire on May 31, 2016; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval.
