SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision of a currently approved information collection.

NOAA's National Weather Service would like to add a TsunamiReady Supporter Application Form to its currently approved collection, which includes StormReady, TsunamiReady, StormReady/TsunamiReady, and StormReady Supporter application forms. The title would then change to "StormReady, TsunamiReady, StormReady/TsunamiReady, StormReady Supporter and TsunamiReady Supporter Application Forms". This new application would be used by entities such as businesses and not-for-profit institutions that may not have the resources necessary to fulfill all the eligibility requirements to achieve the full TsunamiReady recognition. The form will be used to apply for initial TsunamiReady Supporter recognition and renewal of that recognition every five years. The federal government will use the

information collected to determine whether an entity has met all of the criteria to receive TsunamiReady Supporter recognition.

II. Method of Collection

Applications may be faxed, mailed or emailed.

III. Data

OMB Control Number: 0648–0419.

Form Number(s): None.

Type of Review: Regular submission (revision of a currently approved information collection).

SUPPLEMENTARY INFORMATION:

I. Background

National Ocean Policy

Executive Order 13547, signed July 19, 2010, Stewardship of the Ocean, Our Coasts, and the Great Lakes (National Ocean Policy), established a national policy to protect, maintain, and restore the health and biodiversity of the ocean, coastal, and Great Lakes ecosystems and resources; enhance the sustainability of the ocean and coastal economies; preserve our maritime heritage; support sustainable uses and access; provide for adaptive management to enhance our understanding of and capacity to respond to climate change and ocean acidification; increase our scientific understanding and awareness of changing environmental conditions, trends, and their causes; and perform duties in accordance with applicable international law, including respect for and preservation of navigational rights and freedoms, which are essential for the global economy, international peace, national security, and foreign policy interests. The National Ocean Policy encourages a comprehensive, adaptive, integrated, ecosystem-based, and transparent ocean planning process based on sound science for analyzing current and anticipated uses of ocean and coastal areas. The National Ocean Policy also provides for the voluntary development of regional marine plans by intergovernmental regional planning bodies that build upon and improve existing Federal, State, and Tribal decision-making and planning processes. These regional plans, developed by, for, and in the regions, will enable a more integrated, comprehensive, ecosystem-based, flexible, and proactive approach to planning and managing sustainable multiple uses across sectors and improve the conservation of the ocean, our coasts, and the Great Lakes.

Northeast Regional Planning Body

The NE RPB includes six States (Connecticut, Rhode Island, Massachusetts, New Hampshire, Maine, and Vermont); six federally recognized Indian Tribes (Aroostook Band of Micmacs, Houlton Band of Maliseet Indians, Mashpee Wampanoag Tribal Council, Mohegan Indian Tribe of Connecticut, Narragansett Indian Tribe of Rhode Island, and Wampanoag Tribe of Gay Head (Aquinnah)); eight Federal agencies and departments (U.S. Department of Agriculture, U.S. Department of Commerce, U.S. Department of Defense, U.S. Department of Energy, U.S. Department of
