

for years 2009 through 2014 by manufacturer and nameplate. This requested data may contain confidential business information (CBI). Pursuant to 40 CFR 2.209(c), the EPA may disclose business information to other Federal agencies that otherwise is not available to the public if certain requirements are met. The EPA intends to share certain information, detailed below, with EIA ten (10) days after publication of this notice. The information requested has been used to model and project energy

demand in the light-duty vehicle sector and is critical to EIA's efforts to project energy demand, fuel efficiency, fuel consumption, and greenhouse gas emissions for the transportation sector. EIA has agreed to keep the data confidential and not disclose it further.

DATES: The sales data will be disclosed to EIA on or after June 10, 2016.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

Entities potentially affected by this action are those involved with the production and sale of motor vehicles. Regulated categories include:

Category	NAICS ¹ codes	SIC ² codes	Examples of potentially regulated entities
Industry	336111, 336112	3711	Light-duty vehicle and light-duty truck manufacturers.

¹ North American Industry Classification System (NAICS)

² Standard Industrial Classification (SIC) system code.

This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by the disclosure.

II. EIA's Request for Model Year Sales Data for Years 2009–2014

In their May 12, 2016 request letter to EPA, EIA requested that EPA provide to EIA historical model year sales data for years 2009 through 2014 by manufacturer and nameplate. As noted above, EIA uses this information to model and project energy demand in the light-duty vehicle sector. Additionally, EIA noted that these data are critical to EIA's continued efforts to project energy demand, fuel efficiency, fuel consumption, and greenhouse gas emissions for the transportation sector. Previously, EIA had been unable to obtain official model year sales data for 2009 through 2014 due to the fact that it contained CBI. The specific data they requested includes all the data fields currently available in the Excel files provided on the fueleconomy.gov Web site (see the Download Fuel Economy Data page at <http://www.fueleconomy.gov/feg/download.shtml>). Additionally, EIA requested the following data fields: model year sales, tank size, track width, wheelbase, curb weight, horsepower, interior volume, fleet (DP, IP, LT), and test weight.

EIA indicated that they are aware that this information is subject to claims of confidential business information. EIA's letter states "We will take the necessary steps to ensure the data are secure and kept confidential. EIA routinely works with sensitive data and has strong data handling safeguards in place."

Pursuant to 40 CFR 2.209(c), EPA may disclose business information to another Federal agency if: (1) EPA receives a

written request for disclosure of the information from a duly authorized officer or employee of the other agency; (2) the request sets forth the official purpose for which the information is needed; (3) when the information has been claimed as confidential or has been determined to be confidential, the responsible EPA office provides notice to each affected business of the type of information to be disclosed and to whom it is to be disclosed, and such notice may be given by notice published in the **Federal Register** at least 10 days prior to disclosure; (4) EPA notifies the other agency of any unresolved business confidentiality claim covering the information and of any determination under this subpart that the information is entitled to confidential treatment, and that further disclosure of the information may be a violation of the Trade Secrets Act, 18 U.S.C. 1905; and (5) the other agency agrees in writing that in accordance with the law, it will not disclose further any information designated as confidential.

In the case at hand, all of the required elements of 40 CFR 2.209(c) have been met upon publication of this notice.

III. Impact on Vehicle Manufacturers

Given that EIA is aware that the shared information is CBI or has been claimed as CBI, and intends to take the necessary steps to ensure that the data provided is kept secure and confidential, there is no impact on vehicle manufacturers to the release of this data.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1218]

Information Collection Approved by the Office of Management and Budget (OMB)

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for a new information collection pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520). An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number, and no person is required to respond to a collection of information unless it displays a currently valid control number. Comments about the accuracy of the burden estimates and any suggestions for reducing the burden should be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section below.

FOR FURTHER INFORMATION CONTACT: Cathy Williams, Office of the Managing Director, at (202) 418-2918, or email: Cathy.Williams@fcc.gov.

SUPPLEMENTARY INFORMATION: The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–1218.

OMB Approval Date: May 23, 2016.

OMB Expiration Date: May 31, 2019.

Title: Carriage of Digital Television Broadcast Signals: Amendment to Part 76 of the Commission's Rules

Respondents: Business or other for profit entities.

Number of Respondents/Responses: 11 respondents; 11 responses.

Estimated Hours per Response: 0.25 hours (15 minutes).

Frequency of Response: Third party disclosure requirement and recordkeeping requirement.

Total Annual Burden: 3 hours.

Total Annual Cost: None.

Obligation To Respond: Required in order to monitor regulatory compliance. The statutory authority for this information collection is contained in sections 4, 303, 614, and 615 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Act Assessment: No impact(s).

Needs and Uses: The information collection imposes a notification requirement on certain small cable systems that become ineligible for exemption from the requirement to carry high definition broadcast signals in HD (adopted in FCC 15–65). In particular, the information collection requires that, beginning December 12, 2016, at the time a small cable system utilizing the HD carriage exemption offers any programming in HD, the system must give notice that it is offering HD programming to all broadcast stations in its market that are carried on its system. Cable operators also must keep records of such notification. This information collection requirement allows affected broadcast stations to monitor compliance with the requirement that cable operators transmit high definition broadcast signals in HD.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1000]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before August 1, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1000.

Title: Section 87.147, Authorization of Equipment.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 25 respondents; 25 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: One time and occasion reporting requirements and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154, 303 and 307(e) of the Communications Act of 1934, as amended.

Total Annual Burden: 25 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: Section 87.147 is needed to require applicants for aviation equipment certification to submit a Federal Aviation Administration (FAA) determination of the equipment's compatibility with the National Airspace System (NAS). This will ensure that radio equipment operating in certain frequencies is compatible with the NAS, which shares system components with the military. The notification must describe the equipment, along with a report of measurements, give the manufacturer's identification, antenna characteristics, rated output power, emission type and characteristics, the frequency or frequencies of operation, and essential receiver characteristics if protection is required.
