Availability and Summary of Documents Proposed for Incorporation by Reference

This document would amend FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.9Z lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14, Code of Federal Regulations (14 CFR) Part 71 by establishing Class E airspace extending upward from 700 feet above the surface within an 6-mile radius of Lakota Municipal Airport, Lakota, ND, to accommodate new standard instrument approach procedures. Controlled airspace is needed for the safety and management of IFR operations at the airport.

Class E airspace designations are published in Section 6005 of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

Certain Transfers of Property to Regulated Investment Companies [RICs] and Real Estate Investment Trusts [REITs]

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of proposed rulemaking and notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: In the Rules and Regulations section of this issue of the **Federal Register**, the IRS is issuing temporary regulations effecting the repeal of the *General Utilities* doctrine by the Tax Reform Act of 1986. The text of those regulations also serves as part of the text of these proposed regulations. These proposed regulations would impose corporate level tax on certain transactions in which property of a C corporation becomes the property of a REIT. The proposed regulations also make an amendment not addressed in the temporary regulations. The proposed regulations affect RICs, REITs, C corporations the property of which becomes the property of a RIC or a REIT, and their shareholders.

DATES: Comments and requests for a public hearing must be received by August 8, 2016.

ADDRESSES: Send submissions to: CC:PA:LPD:PR (REG-126452-15), Room 5203, Internal Revenue Service, PO Box 7604, Ben Franklin Station, Washington, DC 20044. SUPPLEMENTARY INFORMATION:

Background and Explanation of Provisions

Temporary regulations in the Rules and Regulations section of this issue of the **Federal Register** amend the Income Tax Regulations (26 CFR part 1) relating to section 337(d). The temporary regulations impose corporate level tax on certain transactions in which property of a C corporation becomes the property of a REIT. The text of those regulations also serves as the text of these proposed regulations. The preamble to the temporary regulations explains the amendments.

The proposed regulations also include a modification to the definition of converted property that is not addressed in the temporary regulations. This modification treats as converted property any property the basis of which is determined, directly or indirectly, in whole or in part, by reference to the basis of property owned by a C corporation that becomes the property of a RIC or a REIT. The Treasury Department and the IRS believe that such property presents similar concerns with regard to the purposes of *General Utilities* repeal as other property of a C corporation that becomes the property of a RIC or REIT.

Special Analyses

Certain IRS regulations, including this one, are exempt from the requirements of Executive Order 12866, as supplemented and reaffirmed by Executive Order 13653. Therefore, a regulatory impact assessment is not required. Pursuant to the Regulatory Flexibility Act (5 U.S.C. chapter 6), it is hereby certified that these proposed regulations would not have a significant economic impact on a substantial number of small entities. This certification is based on the fact that these proposed regulations would primarily affect large corporations with a substantial number of shareholders. Therefore, a regulatory flexibility analysis is not required. Pursuant to section 7805(f) of the Code, this regulation has been submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Comments and Requests for Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any comments that are submitted timely to the IRS as prescribed in this preamble under the **ADDRESSES** heading. The Treasury Department and the IRS request comments on all aspects of the proposed regulations. In particular, comments are requested regarding the scope of the terms predecessors and successors. In addition, although related section 355 distributions occurring before or after conversion transactions involving RICs do not present the same degree of concern regarding the purposes of *General Utilities* repeal, comments are requested as to whether the proposed regulations regarding related section 355 distributions should, like the rules of § 1.337(d)–7 generally, apply to both conversion transactions involving RICs and conversion transactions involving REITs. All comments will be available at www.regulations.gov or upon request. A public hearing will be scheduled if requested in writing by any person that timely submits written comments. If a public hearing is scheduled, notice of the date, time, and place of the public hearing will be published in the **Federal Register**.

Drafting Information

The principal author of these regulations is Austin M. Diamond-Jones of the Office of Associate Chief Counsel (Corporate). Other personnel from the Treasury Department and the IRS participated in their development.

Examinations of Working Places in Metal and Nonmetal Mines

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Proposed rule; notice of public hearings.

SUMMARY: The Mine Safety and Health Administration (MSHA) is proposing to amend the Agency's standards for the examination of working places in metal and nonmetal (MNM) mines. The purpose of this proposed rule is to ensure that mine operators identify and correct conditions that may adversely affect miners' safety or health. MSHA is proposing to require that an examination of the working place be conducted before miners begin work in

an area and that the operator notifies miners in the working place of any conditions found that may adversely affect their safety or health. MSHA is also proposing that the competent person conducting the examination sign and date the examination record before the end of each shift, that the record includes information regarding adverse conditions found and corrective actions taken, and that operators make such records available to miners and their representatives. The proposal would enhance the quality of working place examinations in MNM mines and help assure that violations of mandatory health or safety standards are identified and corrected, thereby improving protections for miners.
