

officers designated by or assisting the Captain of the Port (COTP) Jacksonville, Florida in the enforcement of the regulated areas.

(b) *Location.* A permanent security zone is established within the following coordinates, the area enclosed by a line starting at 30°44'55" N., 081°29'39" W.; thence to 30°44'55" N., 081°29'18" W.; thence to 30°46'35" N., 081°29'18" W.; thence to 30°47'02" N., 081°29'34" W.; thence to 30°47'21" N., 081°29'39" W.; thence to 30°48'00" N., 081°29'42" W.; thence to 30°49'07" N., 081°29'56" W.; thence to 30°49'55" N., 081°30'35" W.; thence to 30°50'15" N., 081°31'08" W.; thence to 30°50'14" N., 081°31'30" W.; thence to 30°49'58" N., 081°31'45" W.; thence to 30°49'58" N., 081°32'03" W.; thence to 30°50'12" N., 081°32'17" W.; thence following the land based perimeter boundary to the point of origin.

(c) *Regulations.* (1) No person or vessel may enter or remain within the security zone without the permission of the COTP Jacksonville or designated representative.

(2) All persons and vessels in authorized permission to enter the security zone shall immediately obey any direction or order of the COTP Jacksonville or designated representative.

(3) This regulation does not apply to persons or vessels operating under the authority of the United States Navy or to authorized law enforcement agencies.

■ 3. Add § 165.732 to read as follows:

§ 165.732 Escorted Submarines Sector Jacksonville Captain of the Port Zone.

(a) *Location.* The following areas are regulated navigation areas (RNA) whenever any Navy submarine (foreign or domestic) is being escorted by the Coast Guard within the Sector Jacksonville Captain of the Port Zone territorial seas:

(1) All waters within 1 nautical mile of any Navy submarine operating within the Sector Jacksonville Captain of the Port Zone territorial seas; and

(2) All waters within 1 nautical mile of the charted center of the navigation channel from Crab Island in the Cumberland Sound, Georgia to the St. Marys Entrance Channel and its approach extending eastward to lighted buoy "STM".

(b) *Regulations.* All persons and vessels located within a RNA created by paragraph (a) shall follow all orders and/or directions given to them by Coast Guard escort personnel. 33 CFR 165, Subpart B, contains additional provisions applicable to the RNA created in paragraph (a).

(c) *Notification.* The Coast Guard escort will attempt, when necessary and practicable, to notify any persons or vessels inside or approaching the vicinity of a RNA created in paragraph (a) of this section of its existence via VHF Channel 16 and/or any other means reasonably available.

Dated: June 2, 2016.

S.A. Buschman,

Rear Admiral, U.S. Coast Guard, Commander, Seventh Coast Guard District.

National Emission Standards for Hazardous Air Pollutants for Secondary Aluminum Production

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to amend the National Emission Standards for Hazardous Air Pollutants for Secondary Aluminum Production (Secondary Aluminum NESHAP). In the "Rules and Regulations" section of this **Federal Register**, we are publishing a direct final rule, without a prior proposed rule, that amends the final rule that was published in the **Federal Register** on September 18, 2015, to correct inadvertent errors, to clarify rule requirements for initial performance tests and submittal of malfunction reports, to provide an additional option for new round top furnaces to account for unmeasured emissions during compliance testing and to clarify what constitutes a change in furnace operating mode. The direct final rule also updates Web site addresses for the EPA's Electronic Reporting Tool (ERT) and the Compliance and Emissions Data Reporting Interface (CEDRI). If we receive no adverse comment, we will not take further action on this proposed rule.

DATES: Written comments must be received by July 28, 2016.

Public Hearing. If anyone contacts the EPA requesting to speak at a public hearing by June 20, 2016, we will hold a public hearing on June 28, 2016 on the EPA campus at 109 T.W. Alexander

Drive, Research Triangle Park, North Carolina.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2010-0544, at <http://www.regulations.gov>.

Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the Web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Ms. Rochelle Boyd, Sector Policies and Programs Division (D243-02), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-1390; fax number: (919) 541-3207; and email address: boyd.rochelle@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Why is the EPA publishing this proposed rule?

The EPA is proposing to amend the Secondary Aluminum NESHAP. In addition, the EPA has published a direct final rule amending the Secondary Aluminum NESHAP in the "Rules and Regulations" section of this **Federal Register** because we view this as a noncontroversial action and anticipate no adverse comment. The direct final rule will correct inadvertent errors, clarify rule requirements for initial performance tests and submittal of malfunction reports, extend to new round top furnaces a compliance testing option to account for unmeasured emissions during compliance testing that is already available to uncontrolled group 1 furnaces and clarify what constitutes a change in furnace operating mode. The direct final rule also updates Web site addresses for the EPA's ERT and CEDRI. We have

explained our reasons for this action in the preamble to the direct final rule.

If we receive no adverse comment, we will not take further action on this proposed rule. If we receive adverse comment on all or a distinct portion of this direct final rule, we will publish a timely withdrawal in the **Federal Register** informing the public that some or all of the direct final rule will not take effect. We would address all public comments in any subsequent final rule based on the proposed rule.

If we receive adverse comment on a distinct provision of the direct final rule, we will publish a timely withdrawal in the **Federal Register** indicating which provisions we are withdrawing. The provisions that are not withdrawn will become effective on the date set out in the direct final rule, notwithstanding adverse comment on any other provision. We do not intend to institute a second comment period on this action. Any parties interested in commenting must do so at this time.

The regulatory text for this proposal is identical to that for the direct final rule published in the “Rules and Regulations” section of this **Federal Register**. For further supplementary information, the detailed rationale for this proposal, and the regulatory revisions, see the direct final rule published in the “Rules and Regulations” section of this **Federal Register**.

II. Does this action apply to me?

Categories and entities potentially regulated by this proposed rule include:

Category	NAICS code ¹
Primary Aluminum Production Facilities.	331312
Secondary Aluminum Production Facilities.	331314
Aluminum Sheet, Plate, and Foil Manufacturing Facilities.	331315
Aluminum Extruded Product Manufacturing Facilities.	331316
Other Aluminum Rolling and Drawing Facilities.	331319
Aluminum Die Casting Facilities ...	331521
Aluminum Foundry Facilities	331524

¹ North American Industry Classification System.

This table is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be regulated by this proposed rule. To determine whether your facility is affected, you should examine the applicability criteria in 40 CFR 63.1500. If you have any questions regarding the applicability of any aspect of this action to a particular entity, consult either the air permitting authority for the entity or

your EPA regional representative as listed in 40 CFR 63.13.

III. Statutory and Executive Orders

For a complete discussion of the rationale, regulatory text, and all of the administrative requirements applicable to this action, see the direct final rule in the “Rules and Regulations” section of this **Federal Register**.

Dated: May 27, 2016.

Gina McCarthy,
Administrator.

Mariana Archipelago Fisheries; Remove the CNMI Medium and Large Vessel Bottomfish Prohibited Areas

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: This proposed rule would remove the medium and large vessel bottomfish prohibited fishing areas in the Commonwealth of the Northern Mariana Islands (CNMI). Conditions in the fishery that led to establishing the prohibited areas are no longer present, and the restriction is no longer necessary. The Western Pacific Fishery Management Council recommended Amendment 4 to the Fishery Ecosystem Plan for the Mariana Archipelago (FEP) to remove these prohibited areas, and this proposed rule would implement the recommended change. The intent of the proposed rule is to improve the viability of the CNMI bottomfish fishery and promote optimum yield while preventing overfishing. This proposed rule would also make an administrative housekeeping change to the regulations for the CNMI management subarea crustacean fishing.

DATES: NMFS must receive comments by July 28, 2016.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–2015–0115, by either of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the

Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2015-0115, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Send written comments to Michael D. Tosatto, Regional Administrator, NMFS Pacific Islands Region (PIR), 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818.

Instructions: NMFS may not consider comments sent by any other method, to any other address or individual, or received after the end of the comment period. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

The Western Pacific Fishery Management Council (Council) and NMFS prepared an environmental analysis that describes the potential impacts on the human environment that could result from the proposed rule. The environmental analysis and other supporting documents are available at www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: Sarah Ellgen, NMFS PIRO Sustainable Fisheries, 808–725–5173.

SUPPLEMENTARY INFORMATION: In 2008, the Council recommended establishing, and NMFS implemented, prohibited areas for commercial fishing for Mariana bottomfish management unit species (BMUS) in the CNMI. Federal regulations currently prohibit medium and large vessels (40 ft and greater) from commercial fishing for BMUS in certain Federal waters around the CNMI. The prohibited areas include waters within approximately 50 nm of the Southern Islands (i.e., Rota, Aguigan (alt. Aguijan), Tinian, Saipan, and Farallon de Medinilla) and within 10 nm of Alamagan Island. The Council established the prohibited areas to prevent large bottomfish vessels based in Guam from traveling to CNMI fishing grounds. At the time, the Council was concerned that the Guam vessels could negatively affect fish stocks and local fisheries through stock depletion, catch competition, and gear conflicts. You may read more about the establishment of the prohibited areas in the 2008 proposed rule (73 FR 51992, September
