

of affordability set forth in HOME program standards at 24 CFR 92.252 (e) and 92.254(a)(4).

“Finally, most program income will be received by CDBG entitlement cities and counties, and by states, which have systems and procedures to manage NSP revenues, which are treated in most respects like CDBG revenues. However, non-profit consortium members in NSP2 grant consortia that receive revenues generated by NSP projects will not have access to the state and municipal CDBG tracking systems. Further, the CDBG regulation and Office of Management and Budget (OMB) circular implemented at 24 CFR 84.24(e) or 2 CFR 200.307(f), as applicable, do not require that non-profit grantees continue to treat revenues generated from use of NSP funds and received after grant closeout as federal funds unless HUD regulations or the terms and conditions of the award provide otherwise. Thus, for NSP2 grantees that are not direct formula CDBG grantees (non-profits and non-entitlement local governments, including those that are part of a consortium), HUD is requiring that revenues generated by projects funded before closeout but received within 5 years after grant closeout must be used for NSP-eligible activities and meet NSP benefit requirements, but no other federal requirements would apply. With the exception of income earned from the sale of NSP-assisted real property or loans, any income earned by such post-closeout use of funds would not be governed by any NSP requirements and would be miscellaneous revenues, although HUD encourages such grantees to apply NSP principles to subsequent uses of the funds.”

4. The paragraphs in section Z under the “Requirements” subheading are amended to read as follows:

“Requirements

“1. *Program Income.* Gross revenues received by NSP grantees after closeout will be governed by the following requirements:

“a.i. After notifying HUD in writing and receiving prior written approval, the grantee may receipt the amounts to IDIS (after first revising any DRGR entries related to the funds) and add them to the grantee’s CDBG program income receipts and all relevant CDBG program income requirements shall then apply. HUD will approve a transfer unless the transfer would result in non-compliance with the requirement at 75 FR 64331, paragraph E.2.e based on the use of the NSP funds that would remain after transfer.

“a.ii. If the amounts are not receipted in IDIS, annual amounts of program

income in excess of \$25,000 shall be used in accordance with all NSP requirements for eligible NSP properties, uses, and activities, including new construction, financing mechanisms, and management and disposition of land bank property.

“b. If annual NSP program income does not exceed \$25,000, the funds shall be used for general administrative costs related to ensuring continued affordability of NSP units or added to the grantee’s CDBG program income receipts and the CDBG requirements at 24 CFR 570.500(a)(4) shall apply, which may exclude such amounts from the definition of program income.

“c. NSP program income may provide benefit to individuals and families with incomes up to 120 percent of AMI as permitted in NSP under section II.E;

“d. If a grantee’s annual NSP program income exceeds \$250,000 (after any transfer of program income to CDBG), 25 percent of the program income shall be used to house individuals or families below 50 percent of AMI; in instances in which a grantee’s annual NSP program income does not exceed \$250,000, the requirements of paragraph II.E.2.e do not apply.

“e. NSP2 grantees that are not CDBG entitlement communities or States must use post-closeout revenues generated from NSP-assisted activities funded before closeout for NSP purposes. If the grantee does not have another ongoing grant received directly from HUD at the time of closeout, then in accordance with 24 CFR 570.504(b)(5), income received after closeout from the disposition of real property or from loans outstanding at the time of closeout shall not be governed by NSP or CDBG rules, except that such income shall be used for activities that meet one of the national objectives in 24 CFR 570.208 and the eligibility requirements described in section 105 of the HCD Act. The provisions of 24 CFR 570.504(b)(5) are waived to limit its application to income received within 5 years of grant closeout. Any income received 5 years after grant closeout, as well as program income from funds outlaid after the date of the closeout agreement may be used without restriction. Such grantees are encouraged to use such funds in accordance with the principles above.

“f. States may continue to act directly to implement NSP activities post-closeout.

“g. HUD will provide direction to grantees by the date of closeout on procedures for reporting and tracking NSP program income revenues. Tracking will continue in DRGR until IDIS enhancements to allow NSP

property registry and program income tracking are developed and released.”

Agency Information Collection Activities: Request for Comments

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of a new information collection, Yukon-Kuskokwim Delta Berry Outlook.

SUMMARY: We (the U.S. Geological Survey) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act (PRA) of 1995, and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC.

DATES: To ensure that your comments are considered, we must receive them on or before August 15, 2016.

ADDRESSES: You may submit comments on this information collection to the Information Collection Clearance Officer, U.S. Geological Survey, 12201 Sunrise Valley Drive, MS 807, Reston, VA 20192 (mail); (703) 648-7197 (fax); or gs-info_collections@usgs.gov (email). Please reference 'Information Collection 1028-NEW, Yukon-Kuskokwim Delta Berry Outlook' in all correspondence.

FOR FURTHER INFORMATION CONTACT: Nicole Herman-Mercer, Social Scientist, at (303) 236-5031 or nhmercer@usgs.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Yukon-Kuskokwim (YK) Delta Berry Outlook is a data and observer driven ecological monitoring and modeling framework that forecasts changes in berry habitat and abundance with climate and environmental change. In order to create a monitoring protocol and modeling framework we will solicit local knowledge of berry distribution and abundance from members of Yukon-Kuskokwim communities. Participants from the communities will take part in a survey that asks yes or no questions about the timing, abundance, and distribution of three types of berries that are important in their communities. Personally Identifiable Information (PII) will be limited to four elements: Names, phone numbers, emails, and the name of the village they reside in. This PII will be collected in order to communicate project results and solicit feedback on the project itself for evaluation purposes. Statistical analysis will be performed on the survey responses in order to ascertain if a consensus exists among participants within villages and among villages. The survey results will be one source of information used to create a model forecasting changes in Tribal food sources.

The USGS mission is to serve the Nation by providing reliable scientific information to describe and understand the Earth. This project will collect information from individuals to better understand the abundance, distribution, and variability of

berry resources in the Yukon-Kuskokwim Delta region of Alaska. The people of the YK delta rely on wild berries for a substantial part of their diet and hold information about the long term distribution and abundance of berries that is useful for understanding current and future changes to berry habitat due to climate change impacts that will effect both human and wildlife populations of the Yukon Delta region and the Yukon Delta National Wildlife Refuge.

II. Data

OMB Control Number: 1028-NEW.

Title: Yukon-Kuskokwim Delta Berry Outlook.

Type of Request: New information collection.

Affected Public: Individuals; Tribal members that reside in the villages of Chevak, Hooper Bay, Kotlik, and Emmonak, Alaska.

Respondent's Obligation: None, participation is voluntary.

Frequency of Collection: One-time.

Estimated Annual Number of Respondents: Forty.

Estimated Total Number of Annual Responses: Forty.

Estimated Time per Response: One hour.

Estimated Annual Burden Hours: Forty hours.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: None.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number and current expiration date.

III. Request for Comments

We are soliciting comments as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Please note that the comments submitted in response to this notice are a matter of public record. Before including your personal mailing address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment, including your personally identifiable information, may be made publicly available at any time. While

you can ask us in your comment to withhold your personally identifiable information from public view, we cannot guarantee that we will be able to do so.
