SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish Class E airspace at Jetmore Municipal Airport, Jetmore, KS.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in

triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2016-7002/Airspace Docket No. 16-ACE-5." The postcard will be date/time stamped and returned to the commenter.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.9Z, Airspace Designations and Reporting Points, dated August 6, 2015, and effective September 15, 2015. FAA Order 7400.9Z is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.9Z lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14, Code of Federal Regulations (14 CFR) Part 71 by establishing Class E airspace extending upward from 700

feet above the surface within a 6-mile radius of Jetmore Municipal Airport, Jetmore, KS, to accommodate new standard instrument approach procedures. Controlled airspace is needed for the safety and management of IFR operations at the airport.

Class E airspace designations are published in Section 6005 of FAA Order 7400.9Z, dated August 6, 2015, and effective September 15, 2015, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

Establishing a More Effective Fair Market Rent System; Using Small Area Fair Market Rents in Housing Choice Voucher Program Instead of the Current 50th Percentile FMRs

AGENCY: Office of the Assistant Secretary for Policy Development and Research, HUD.

ACTION: Proposed rule.

SUMMARY: This rulemaking proposes the use of Small Area Fair Market Rents (Small Area FMRs) in the administration of the Housing Choice Voucher (HCV) program for certain metropolitan areas. HUD is proposing to use Small Area FMRs in place of the current 50th percentile rent to address high levels of voucher concentration. HUD believes that Small Area FMRs gives HCV tenants a more effective means to move into areas of higher opportunity and lower poverty areas by providing them with subsidy adequate to make such areas accessible and to thereby reduce the number of voucher families that reside in areas of high poverty concentration.

HUD proposes to use several criteria for determining which metropolitan areas would best be served by application of Small Area FMRs in the administration of the HCV program.

These criteria include a threshold number of vouchers within a metropolitan area, the concentration of current HCV tenants in low-income areas, and the percentage of renter occupied units within the metropolitan area with gross rents above the payment standard basic range. Public housing agencies (PHAs) operating in designated metropolitan areas would be required to use Small Area FMRs. PHAs not operating in the designated areas would have the option to use Small Area FMRs in administering their HCV programs. Other programs that use FMRs would continue to use area-wide FMRs. HUD's goal in pursuing this rulemaking is to provide HCV tenants with a greater ability to move into areas where jobs, transportation, and educational opportunities exist.

DATES: *Comment Due Date:* August 15, 2016.

ADDRESSES: Interested persons are invited to submit comments regarding this proposed rule to the Regulations Division, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street SW., Room 10276, Washington, DC 20410–0500.
