

Structuring the Aggregate Proceeding

6. Agencies that use aggregation should ensure that the parties' and other stakeholders' interests are adequately protected and that the process is understood to be transparent and legitimate by considering the use of mechanisms such as:

- a. Permitting interested stakeholders to file amicus briefs or their equivalent;
- b. Conducting "fairness hearings," in which all interested stakeholders may express their concerns with the proposed relief to adjudicators in person or in writing;
- c. Ensuring that separate interests are adequately represented in order to avoid conflicts of interest;
- d. Permitting parties to opt out in appropriate circumstances;
- e. Permitting parties to challenge the decision to aggregate in the appeals process, including an interlocutory appeal to the agency; and
- f. Allowing oral arguments for amici or amicus briefs in agency appeals.

7. Agencies that use aggregation should develop written and publicly available policies explaining how they initiate, conduct, and terminate aggregation proceedings. The policies should also set forth the factors used to determine whether aggregation is appropriate.

8. Where feasible, agencies should consider assigning a specialized corps of experienced adjudicators who would be trained to handle aggregate proceedings, consistent with APA requirements where administrative law judges are assigned. Agencies should also consider using a panel of adjudicators from the specialized corps to address concerns with having a single adjudicator decide cases that could have a significant impact. Agencies that have few adjudicators may need to "borrow" adjudicators from other agencies for this purpose.

Using Aggregation To Enhance Control of Policymaking

9. Agencies should make all decisions in aggregate proceedings publicly available. In order to obtain the maximum benefit from aggregate proceedings, agencies should also consider designating final agency decisions as precedential if doing so will:

- a. Help other adjudicators handle subsequent cases involving similar issues more expeditiously;
- b. Provide guidance to future parties;
- c. Avoid inconsistent outcomes; or
- d. Increase transparency and openness.

10. Agencies should ensure the outcomes of aggregate adjudication are communicated to policymakers or personnel involved in rulemaking so that they can determine whether a notice-and-comment rulemaking proceeding codifying the outcome might be worthwhile. If agencies are uncertain they want to proceed with a rule, they might issue a notice of inquiry to invite interested parties to comment on whether the agencies should codify the adjudicatory decision (in whole or in part) in a new regulation.

BILLING CODE 6110-01-P

DEPARTMENT OF AGRICULTURE**Forest Service****Notice of Proposed New Special Recreation Permit Fee**

AGENCY: Wallowa-Whitman National Forest, USDA Forest Service.

ACTION: Notice of proposed new special recreation permit fee.

SUMMARY: The Wallowa-Whitman National Forest is proposing to implement a Special Recreation Permit Fee on the Wild and Scenic Snake River which flows between Oregon and Idaho. Implementing a Special Recreation Permit Fee would allow the Forest Service to manage the specialized recreation use associated with float and power boating on the Wild and Scenic Snake River, and result in improved services and experiences. Fees are assessed based on the level of amenities and services provided, cost of operation and maintenance of river-related facilities, market assessment, and public comments received.

Boaters using the Wild and Scenic Snake River would be subject to a Special Recreation Permit Fee (boater-use permit fee) of \$5.00 to \$10.00 per person that would be collected from all private and commercial boaters and their occupants. The implementation of the fee on the Wild and Scenic Snake River is comparable to other federal day-use fees within the current Four Rivers reservation system for the Selway, Middle Fork Salmon, Main Salmon and other sections of the Snake Rivers. The area subject to the fee is the Snake River beginning at Hells Canyon Dam to Cache Creek Ranch (approximately 70 miles).

The exceptions to this boater-use permit fee are:

- Travel by private, noncommercial boat to any land in which the person has property rights.
- Any person who has right of access for hunting or fishing privileges under specific provisions of treaty or law.
- Individual outfitter/guides and their associated employees, while acting in an official capacity under the terms of their permit.

At this time there is no boater-use permit fee on the Wild and Scenic Snake River for float or power boats. Boater-use for private float and power boats is currently managed through a national reservation system, which limits the amount of boats during the primary use season to meet management plan direction. A \$6.00 transaction cost is associated with this reservation permit and is completely retained by the

reservation contractor. In the future the reservation permit fee will be continued in conjunction with the application of this proposed boater-use permit fee for private boaters.

At this time the listed boater-use permit fee is only a proposal and further analysis and public comment will occur before a decision is made. Funds from the proposed fee would be used for administrative and operational needs in the recreation area to enhance user experience and safety, sustain natural and cultural resources, and facility maintenance and improvements.

DATES: New fees would begin after, and contingent upon a review and recommendation by the John Day-Snake River Resource Advisory Council and approval by the Regional Forester for the Pacific Northwest Region. All comments should be received no later than 60 days from publication of this notice in the **Federal Register**. The publication date of this Notice in the **Federal Register** is the exclusive means for calculating the comment period for this proposal.
