SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Information Assurance Scholarship Program; OMB Control Number 0704-0486.

Needs and Uses: The National Security Agency (NSA) is the Executive Administrator of the DoD Information Assurance Scholarship Program (IASP), serving on behalf of the DoD Chief Information Officer. Those who wish to participate in the DoD IASP Recruitment program must complete and submit an application package through their college or university to NSA. Centers of Academic Excellence in Cyber Defense (CAEs) interested in applying for capacity-building grants must complete and submit a written proposal, and all colleges and universities subsequently receiving grants must provide documentation on how the grant funding was utilized and the resulting accomplishments. Without this written documentation, the DoD has no means of judging the quality of applicants to the program or collecting information regarding program performance. In addition, the DoD IASP participants and their faculty advisors (Principal Investigators) are asked to complete annual program assessments. These assessments are collectively reviewed to evaluate the program's effectiveness from the perspective of the students and Principal Investigators. The assessment information is used to improve the program in subsequent years. The estimated burden is based on a typical funding profile for this

scholarship program. The actual burden may be less, based on available funding.

Affected Public: Individuals or households; not-for-profit institutions.
Annual Burden Hours: 2,166.
Number of Respondents: 361.
Responses per Respondent: 2.
Annual Responses: 722.
Average Burden per Response: 3 hours.

Frequency: Annually.

Respondents to the scholarship information collection are applicants who provide academic records and professional experience summaries to the NSA for the IASP scholar selection process. Respondents to the grants information collection are Principal Investigators at colleges and universities designated as Centers of Academic Excellence (CAE) participating in the IASP who provide proposals for capacity building initiatives supporting the expansion of cyber-related degree programs at their CAE. The DoD IASP is designed to: Increase the number of new college graduate entrants to DoD who possess key cybersecurity skill sets; serve as a tool to develop and retain well-educated military and civilian personnel who support the Department's cyberspace mission including cutting edge research and development; and serve as a mechanism to build the nation's cyber infrastructure through grants to colleges and universities designated as CAEs by the NSA and the Department of Homeland Security. In addition, respondents to the annual program assessment survey provide feedback on the program, including suggestions for improvements and changes that can be incorporated to make the grants IASP information collection process stronger and more efficient.

Dated: June 20, 2016.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
