#### Agricultural Marketing Service

*Title:* Federal Seed Act Program.

*OMB Control Number:* 0581–0026.

*Summary of Collection:* The Federal Seed Act (FSA) (7 U.S.C. 1551–1611) regulates agricultural and vegetable seeds in interstate commerce. Agricultural and vegetable seeds shipped in interstate commerce are required to be labeled with certain quality information such as the name of the seed, the purity, the germination, and the noxious-weed seeds of the state into which the seed is being shipped. State seed regulatory agencies refer to the Agricultural Marketing Service (AMS) complaints involving seed found to be mislabeled and to have moved in interstate commerce. AMS investigates the alleged violations and if the violation is substantiated, takes regulatory action ranging from letters of warning to monetary penalties. AMS will collect information from records of each lot of seed and make them available for inspection by agents of the Secretary.

*Need and Use of the Information:* The information collected consists of records pertaining to interstate shipments of seed which have been alleged to be in violation of the FSA. The shipper's records pertaining to a complaint are examined by FSA program specialists and are used to determine if a violation of the FSA occurred. The records are also used to determine if the precautions taken by the shipper assure that the seed was accurately labeled and determine the corrective steps that can be taken by the shipper to prevent future violations. The FSA program would be ineffective without the ability to examine pertinent records as necessary to resolve complaints of violations.

*Description of Respondents:* Business or other for-profit; Farm.

*Number of Respondents:* 3,245.

*Frequency of Responses:*

Recordkeeping; Reporting; On occasion.

*Total Burden Hours:* 29,793.

#### Agricultural Marketing Service

*Title:* Regulations Governing Inspection Certification of Fresh and Processed Fruits, Vegetables and Other Products—7 CFR part 51 and 52.

*OMB Control Number:* 0581–0125.

*Summary of Collection:* The Agricultural Marketing Act of 1946 as amended, (7 U.S.C. 1621–1627) directs and authorizes the Secretary of Agriculture to inspect, certify and identify the class, quantity, quality and condition of agricultural produces when shipped or received in interstate commerce, under such rules and regulations as the Secretary may prescribe, etc. The Secretary has delegated this authority to the AMS Specialty Crops Inspection Division (SCI). The SCI Division provides nationwide audit and inspection services for fresh and processed fruits, vegetables, and other products to growers, shippers, importers, processors, sellers, buyers, and other financially interested parties on a “user fee” basis.

Approved collection “Specialty Crop Inspection Division Order Forms” 0581–0292 is being merged into and totals for both collections are combined in this renewal request. With this submission and merging of the two approved collections, the Division will be better able to efficiently manage the collection and prevent duplication of burden.

*Need and Use of the Information:* The SCI Division collects information using various forms. This information includes: The name and location of the person or company shipping and receiving the product(s), the name and location of the person or company requesting the inspection, the date and time the inspection is requested to be performed, the type and location of the product to be inspected, the type of inspection being requested and any information that will identify the product. The information collected provides services for inspection, grading, certification purposes, and other services to facilitate trading of agricultural products, e.g., providing import product inspections, export product inspections, contract and specification acceptance services, facility assessments, and certification of

quantity and quality; verification and auditing; and developing standards for grades of products.

*Description of Respondents:* Business or other for profit.

*Number of Respondents:* 58,314.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 25,283.

#### **Agricultural Marketing Service**

*Title:* Seed Service Testing Program.

*OMB Control Number:* 0581-0140.

*Summary of Collection:* The Agricultural Marketing Act (AMA) of 1946, as amended by 7 U.S.C. 1621 authorizes the Secretary to inspect and certify the quality of agricultural products and collect such fees as reasonable to cover the cost of service rendered. The purpose of the voluntary program is to promote efficient, orderly marketing of seeds and assist in the development of new and expanding markets. Under the program, samples of agricultural and vegetable seeds submitted to the Agricultural Marketing Service (AMS) are tested for factors such as purity and germination at the request of the applicant for the service. The Testing Section of the Seed Regulatory and Testing Branch of AMS that test the seed and issues the certificates is the only Federal seed testing facility that can issue the Federal Seed Analysis Certificate.

*Need and Use of the Information:*

Applicants generally are seed firms who use the seed analysis certificates to represent the quality of seed lots to foreign customers according to the terms specified in contracts of trade. The only information collected is information needed to provide the service requested by the applicant. Applicants must provide information such as the kind and quantity of seed, tests to be performed, and seed treatment if present, along with a sample of seed in order for AMS to provide the service. A Seed Analysis Certificate-Sample Inspection LS-375 or ISTA Orange International Seed Lot Certificate is issued by AMS giving the test results. Only authorized AMS employees will use the information collected to track, test, and report test results to the applicant. If the information were not collected, AMS would not know which test to conduct or would not be able to relate the test results with a specific lot of seed.

*Description of Respondents:* Business or other for-profit; Farms; State, Local or Tribal Government.

*Number of Respondents:* 55.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 315.
