SUPPLEMENTARY INFORMATION

I. Abstract

The U.S. Census Bureau developed the Local Update of Census Addresses (LUCA) Operation prior to the 2000 Census to meet the requirements of the Census Address List Improvement Act of 1994, Public Law 103-430. The Census Bureau will use information collected through LUCA to help develop the housing unit and group quarters (e.g., college dormitory, nursing home, correctional facility) address information that it will need to conduct the Decennial Census. LUCA is a voluntary operation for governmental units. Participating governments may review the Census Bureau's Title 13 U.S.C. confidential list of individual living quarters addresses and provide to the Census Bureau address additions, corrections, deletions, structure point coordinates, and road updates. Participating governments also may provide spatial and attribute updates for addresses and roads. Governments electing to participate in LUCA also provide contact information, certification of their agreement to maintain the confidentiality of the Census Bureau address information, responses regarding their physical and information technology security capability, product media preference information, shipment inventory information, and certification of their destruction or return of materials containing confidential data.

LUCA will be available to tribal, state, and local governments, the District of Columbia, and Puerto Rico (or their designated representatives) in areas for which the Census Bureau performs a pre-census Address Canvassing Operation. A majority of governments will have some area that will be
