In conjunction with the proposed variance, the licensee proposes to provide no more than 50 cfs to the Potter Valley Irrigation District (PVID) through the East Branch Russian River.

The licensee also proposes to establish a Potter Valley Drought Working Group, comprised of the resource agencies and stakeholders, which would meet twice monthly during the variance to determine appropriate release levels within the framework of the proposed variance. The licensee requests that once a flow is established, that a 24-hour average flow be used as the compliance criteria for the corresponding compliance point. Finally, the licensee proposes to file monthly compliance reports with the Commission, and to provide bi-monthly email reports to the resource agencies and stakeholders.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is issuing a notice of receipt of request by

registrants to voluntarily cancel certain pesticide registrations and amend one pesticide registration. The amendment request would delete dodecylguanidine hydrochloride (DGH) use in disposable diapers. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw their requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registrations have been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order.

DATES: Comments must be received on or before August 22, 2016.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2015-0452, by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental and human health advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through

[regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

II. What action is the Agency taking?

This notice announces receipt by the Agency of requests from registrants to cancel 176 pesticide products registered under FIFRA section 3 (7 U.S.C. 136a) and amend one product registration for DGH by deleting the specific use listed in Table 2 of this unit. The registrations to cancel pesticide products are listed in sequence by registration number in Table 1 of this unit.

Unless the Agency determines that there are substantive comments that warrant further review of the requests or the registrants withdraw their requests, EPA intends to issue an order in the **Federal Register** canceling the affected registrations.

III. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the EPA Administrator may approve such a request.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

None of the registrations in Table 1 and Table 2 of Unit II. are for minor agricultural use. Accordingly, EPA will provide a 30-day comment period on the proposed requests.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation or use deletion must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of

any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Table 1 and Table 2 of Unit II.

A. For Products 10324–64, 10324–73, 10324–79, 10324–82, 10324–83, 10324–84, 10324–86, 10324–109, 10324–131, 10324–134, 10324–144, 10324–146, 10324–147, 10324–163, 10324–168, 10324–179, 10324–180, 10324–181, 10324–189, 10324–190, 10324–191, 10324–192, 10324–213, 10324–215, 10324–216

The registrant has requested to the Agency via letter to sell existing stocks for an 18-month period for products 10324–64, 10324–73, 10324–79, 10324–82, 10324–83, 10324–84, 10324–86, 10324–109, 10324–131, 10324–134, 10324–144, 10324–146, 10324–147, 10324–163, 10324–168, 10324–179, 10324–180, 10324–181, 10324–189, 10324–190, 10324–191, 10324–192, 10324–213, 10324–215, 10324–216. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation, EPA anticipates allowing registrants to sell and distribute existing stocks of these products for 1 year and 6 months after publication of the Cancellation Order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section

17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

B. For All Other Products Identified in Table 1 and Table 2 of Unit II.

Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products or uses identified in Table 1 and Table 2 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products for 1 year after publication of the Cancellation Order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 and Table 2 of Unit II., except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.
