

these technologies, YPG needs to use the existing airspace and ground infrastructure at Laguna Army Airfield. Use of the Airfield is limited to “official business only” with “prior permission required.” Therefore, hazardous testing could be conducted safely within proposed R-2306F without impacting non-participating aircraft.

The Proposal

The FAA is proposing an amendment to 14 CFR part 73 to establish a new restricted area, R-2306F, extending from the surface to 1,700 feet MSL, in the vicinity of Laguna Army Airfield at Yuma Proving Ground, AZ. The proposed area would be used for the testing of various hazardous systems including non-eye-safe lasers, high energy radars and the development of experimental weapons. Testing would include the operation of these systems from various aircraft platforms. Restricted airspace is required to effectively test these complex integrated systems without posing a hazard to non-participating aircraft and/or ground personnel. Proposed R-2306F would be completely contained over YPG-owned land. No supersonic flights would be conducted within the proposed airspace.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subjected to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” prior to any FAA final regulatory action.

Proposed 2020 Census Residence Criteria and Residence Situations; Extension of Comment Period

AGENCY: Bureau of the Census, Department of Commerce.

ACTION: Proposed Criteria; Extension of Comment Period.

SUMMARY: The Bureau of the Census (Census Bureau) is issuing this document to extend the comment period on the Proposed 2020 Census Residence Criteria and Residence Situations, which was published in the **Federal Register** on June 30, 2016. The comment period for the proposed criteria, which would have ended on August 1, 2016, is now extended until September 1, 2016.

DATES: Comments on the proposed criteria published on June 30, 2016 (81 FR 42577), must be received by September 1, 2016.

ADDRESSES: Direct all written comments regarding the Proposed 2020 Census Residence Criteria and Residence Situations to Karen Humes, Chief, Population Division, U.S. Census Bureau, Room 6H174, Washington, DC 20233; or Email [POP.2020.Residence.Rule@census.gov].

FOR FURTHER INFORMATION CONTACT: Population and Housing Programs Branch, U.S. Census Bureau, 6H185, Washington, DC 20233, telephone (301) 763–2381; or Email [POP.2020.Residence.Rule@census.gov].

SUPPLEMENTARY INFORMATION:

Background

The U.S. Census Bureau is committed to counting every person in the 2020 Census once, only once, and in the right place. The fundamental reason that the decennial census is conducted is to fulfill the Constitutional requirement (Article I, Section 2) to apportion the seats in the U.S. House of Representatives among the states. Thus, for a fair and equitable apportionment, it is crucial that the Census Bureau counts everyone in the right place during the decennial census.

The residence criteria are used to determine where people are counted during each decennial census. For more information on the Proposed 2020 Census Residence Criteria and Residence Situations (also referred to as the proposed “2020 Census Residence Rule and Residence Situations” in the text of the earlier document), please see the original document of proposed criteria and request for comment published in the **Federal Register** on June 30, 2016 (81 FR 42577).

Because of the scope of the proposed criteria, and in response to individuals and organizations who have requested more time to review the proposed criteria, the Census Bureau has decided to extend the comment period for an additional 31 days. This document announces the extension of the public comment period to September 1, 2016.

Dated: July 19, 2016.

Nancy A. Potok,

Deputy Director, Bureau of the Census.

Continuum of Care Program: Solicitation of Comment on Continuum of Care Formula

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice; request for comments.

SUMMARY: On July 31, 2012, HUD published an interim rule, for public comment, entitled “Homeless Emergency Assistance and Rapid Transition to Housing: Continuum of Care Program,” a program designed to address the critical problem of homelessness through a coordinated community-based process of identifying needs and building a system of housing and services to address those needs. HUD received 551 public comments on the interim rule. Approximately 42 of the public comments addressed the Continuum of Care formula, with the majority of these commenters seeking changes to the formula. With the interim rule now in place for 3 years, HUD seeks additional comment on the Continuum of Care formula.

Comment Due Date: September 23, 2016.

ADDRESSES: Interested persons are invited to submit comments regarding this rule to the Regulations Division, Office of General Counsel, 451 7th Street SW., Room 10276, Department of Housing and Urban Development, Washington, DC 20410-0500. Communications must refer to the above docket number and title. There are two methods for submitting public comments. All submissions must refer to the above docket number and title.

1. Submission of Comments by Mail. Comments may be submitted by mail to the Regulations Division, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street SW., Room 10276, Washington, DC 20410-0500.

2. Electronic Submission of Comments. Interested persons may submit comments electronically through

the Federal eRulemaking Portal at www.regulations.gov. HUD strongly encourages commenters to submit comments electronically. Electronic submission of comments allows the commenter maximum time to prepare and submit a comment, ensures timely receipt by HUD, and enables HUD to make them immediately available to the public. Comments submitted electronically through the www.regulations.gov Web site can be viewed by other commenters and interested members of the public. Commenters should follow the instructions provided on that site to submit comments electronically.

Note: To receive consideration as public comments, comments must be submitted through one of the two methods specified above. Again, all submissions must refer to the docket number and title of the document.

No Facsimile Comments. Facsimile (fax) comments are not acceptable.

Public Inspection of Public Comments. All properly submitted comments and communications submitted to HUD will be available for public inspection and copying between 8 a.m. and 5 p.m. weekdays at the above address. Due to security measures at the HUD Headquarters building, an advance appointment to review the public comments must be scheduled by calling the Regulations Division at 202-708-3055 (this is not a toll-free number). Individuals with speech or hearing impairments may access this number through TTY by calling the Federal Relay Service at 800-877-8339. Copies of all comments submitted are available for inspection and downloading at www.regulations.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Continuum of Care (CoC) Interim Rule

On July 31, 2012, at 77 FR 45422, HUD published in the **Federal Register** an interim rule to implement the CoC authorized amendments to the McKinney-Vento Homeless Assistance Act in the Homeless Emergency Assistance and Rapid Transition to

Housing Act of 2009 (HEARTH Act). The purpose of the CoC program is to promote communitywide commitment to the goal of ending homelessness; provide funding for efforts by nonprofit providers, and State and local governments to quickly rehouse homeless individuals and families while minimizing the trauma and dislocation caused to homeless individuals, families, and communities by homelessness; promote access to and effective utilization of mainstream programs by homeless individuals and families; and optimize self-sufficiency among individuals and families experiencing homelessness.

Section 427 of the McKinney Vento Act, as amended by the HEARTH Act, directs the Secretary to establish, by regulation, a funding formula that is based upon factors that are appropriate to allocate funds to meet the goals and objectives of the CoC program. As part of the interim rule, HUD codified the formula for establishing a CoC's Preliminary Pro Rata Need (PPRN formula) that had been used for many years prior to the interim rule to establish a CoC's PPRN. The PPRN formula is a combination of the formula used to award Emergency Solutions Grants (ESG) Program grant funds and Community Development Block Grant (CDBG) funds. Under the current PPRN formula, after a .2 percent set-aside for U.S. territories and insular areas, 75 percent of the total CoC allocation is distributed to ESG entitlement communities, generally comprised of large metropolitan cities and urban counties where homelessness is more concentrated, according to the CDBG formula. The remaining 25 percent of the CoC allocation is distributed to ESG non-entitlement communities according to the CDBG formula. Within this framework, the current CDBG formula is structured as a “dual formula” system. As set forth below, Formula A allocates funds to communities based on the following weighted factors: population, poverty, and overcrowding. Formula B assigns a different weighting scheme to an alternative menu of factors: population growth lag,¹ poverty, and pre-1940s housing.² Specifically, the existing CDBG formulas³ are weighted as follows.

¹ Population growth lag identifies slower growing communities or communities experiencing population loss as potential indicators of communities in decline and in need of development assistance.

² The share of housing units built before 1940 reflects the age of a community's housing stock, a potential indicator of blight.

³ For non-entitlement communities, Formula B uses population instead of population growth lag.
