

public comment. EPA is required to prepare and seek public comment on the Draft TAR.⁶ The Draft TAR is a technical report, not a decision document. The Draft TAR is an opportunity for all three agencies to share with the public the initial technical analyses of a wide range of issues relevant to the MY 2022–2025 standards. The Draft TAR is a first step in the process that will ultimately inform, for EPA, whether the MY 2022–2025 GHG standards adopted by EPA in 2012 should remain in place or should change, and, for NHTSA, what MY 2022–2025 CAFE standards will be maximum feasible under the Energy Policy and Conservation Act (EPCA), as amended by the Energy Independence and Security Act (EISA) of 2007 (49 U.S.C. 32902). The preamble to the 2012 final rule states that “[t]he TAR will examine the same issues and underlying analyses and projections considered in the original rulemaking including technical and other analyses related to each agency’s authority to set standards as well as any relevant new issues that may present themselves.” 77 FR 62784 (October 15, 2012).

The agencies have conducted extensive research and analyses to support the MTE, as discussed throughout the Draft TAR. As part of gathering robust data and information to inform the MTE, the agencies also have conducted extensive outreach with a wide range of stakeholders—including auto manufacturers, automotive suppliers, non-governmental organizations, consumer groups, labor unions, state and local governments, the academic and research communities, and others. Among other things, the Draft TAR presents analyses reflecting this research and information obtained during the agencies’ outreach, presents updated assessments of available technologies’ effectiveness and costs since the 2012 final rule, and offers an opportunity for public comment on the agencies’ analyses thus far. The agencies will fully consider public comments on the Draft TAR as they continue the MTE process.

The Draft TAR and related materials are available in the public dockets for this action (see **ADDRESSES** above) and at <https://www3.epa.gov/otaq/climate/mte.htm> and <http://www.nhtsa.gov/Laws+&+Regulations/CAFE+-+Fuel+Economy/ld-cafe-midterm-evaluation-2022-25>.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570 or send an email to omb@cdc.gov. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395-5806. Written comments should be received within 30 days of this notice.

Proposed Project

Environmental Public Health Tracking Network (Tracking Network)—Existing Collection in use without an OMB Control Number—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In September, 2000, the Pew Environmental Health Commission issued a report entitled "America's Environmental Health Gap: Why the Country Needs a Nationwide Health Tracking Network." In this report, the Commission documented that the existing environmental health systems were inadequate and fragmented and recommended a "Nationwide Health Tracking Network for disease and exposures." In response to the report, Congress appropriated funds in the fiscal year 2002's budget for the CDC to establish the National Environmental Public Health Tracking Network (Tracking Network).
