Federal Energy Regulatory Commission

18 CFR Part 154

[Docket No. RM01–5–000]

Electronic Tariff Filings

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Correcting amendment.

SUMMARY: This document contains corrections to the final regulations that became effective November 3, 2008 (with implementation of the requirements beginning April 1, 2010), as published in the subsequent editions of the Code of Federal Regulations, including the 2015 edition.

DATES: *Effective date:* August 3, 2016.

FOR FURTHER INFORMATION CONTACT: Richard Wartchow, Office of the General Counsel, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, Telephone: 202–502–6000.

SUPPLEMENTARY INFORMATION: The Commission amended 18 CFR 154.112(a), addressing the filing of “special rate schedules,” reflecting special operating arrangements previously certificated pursuant to part 157 of the Commission’s regulations (such as for the exchange of natural gas).¹

As published in the 2015 edition of the Code of Federal Regulations, the final regulations (effective November 3, 2008) contained an error. Order No. 714 revised the fourth, fifth and sixth sentences to reflect new filing requirements. However, the published version of 18 CFR 154.112(a) incorrectly retained language from the earlier version that should have been superseded. The Commission did not intend to retain the superseded sentences. This correcting amendment removes the incorrectly-retained language. This correction does not affect 18 CFR 154.112(b) which remains unchanged.

List of Subjects in 18 CFR Part 154

Natural gas, Pipelines, Reporting and record-keeping requirements, Natural gas companies, Rate schedules and tariffs.

Accordingly, 18 CFR part 154 is corrected by making the following correcting amendments:

■ 2. Section 154.112 is corrected by revising paragraph (a) to read as follows:

§ 154.112 Exception to form and composition of tariff.

(a) The Commission may permit a special rate schedule to be filed in the form of an agreement in the case of a special operating arrangement, previously certificated pursuant to part 157 of this chapter, such as for the exchange of natural gas. The special rate schedule must contain a title page showing the parties to the agreement,

the date of the agreement, a brief description of services to be rendered, and the designation: “Rate Schedule X-[number].” Special rate schedules may not contain any supplements. Modifications must be made by inserting revised sheets, sections or the entire document as appropriate. Special rate schedules must be included in a separate volume of the tariff. Each such separate volume must contain a table of contents which is incorporated as a sheet or section in the open access transmission tariff.

Extension of Expiration Dates for Four Body System Listings

AGENCY: Social Security Administration.
ACTION: Final rule.

SUMMARY: We are extending the expiration dates of the following body systems in the Listing of Impairments (listings) in our regulations: Musculoskeletal System, Cardiovascular System, Digestive System, and Skin Disorders. We are making no other revisions to these body systems in this final rule. This extension ensures that we will continue to have the criteria we need to evaluate impairments in the affected body systems at step three of the sequential evaluation processes for initial claims and continuing disability reviews.

DATES: This final rule is effective on August 3, 2016.

FOR FURTHER INFORMATION CONTACT: Cheryl A. Williams, Director, Office of Medical Policy, 6401 Security Boulevard, Baltimore, MD 21235–6401, (410) 965–1020. For information on eligibility or filing for benefits, call our national toll-free number, 1–800–772–1213, or TTY 1–800–325–0778, or visit our Internet site, Social Security Online, at <http://www.socialsecurity.gov>.

SUPPLEMENTARY INFORMATION:

Background

We use the listings in appendix 1 to subpart P of part 404 of 20 CFR at the third step of the sequential evaluation

process to evaluate claims filed by adults and children for benefits based on disability under the title II and title XVI programs.¹ 20 CFR 404.1520(d), 416.920(d), 416.924(d). The listings are in two parts: Part A has listings criteria for adults and Part B has listings criteria for children. If you are age 18 or over, we apply the listings criteria in part A

when we assess your impairment or combination of impairments. If you are under age 18, we first use the criteria in part B of the listings when we assess your impairment(s). If the criteria in part B do not apply, we may use the criteria in part A when those criteria give appropriate consideration to the

effects of your impairment(s). 20 CFR 404.1525(b), 416.925(b).

Explanation of Changes

In this final rule, we are extending the dates on which the listings for the following four body systems will no longer be effective as set out in the following chart:

Listing	Current expiration date	Extended expiration date
Musculoskeletal System 1.00 and 101.00	January 27, 2017	January 26, 2018.
Cardiovascular System 4.00 and 104.00	January 27, 2017	January 26, 2018.
Digestive System 5.00 and 105.00	January 27, 2017	January 26, 2018.
Skin Disorders 8.00 and 108.00	January 27, 2017	January 26, 2018.

We continue to revise and update the listings on a regular basis, including those body systems not affected by this final rule.² We intend to update the four listings affected by this final rule as quickly as possible, but may not be able to publish final rules revising these listings by the current expiration dates. Therefore, we are extending the expiration dates listed above.

Regulatory Procedures

Justification for Final Rule

We follow the Administrative Procedure Act (APA) rulemaking procedures specified in 5 U.S.C. 553 in promulgating regulations. Section 702(a)(5) of the Social Security Act, 42 U.S.C. 902(a)(5). Generally, the APA requires that an agency provide prior notice and opportunity for public comment before issuing a final regulation. The APA provides exceptions to the notice-and-comment requirements when an agency finds there is good cause for dispensing with such procedures because they are impracticable, unnecessary, or contrary to the public interest.

We have determined that good cause exists for dispensing with the notice and public comment procedures. 5 U.S.C. 553(b)(B). This final rule only extends the date on which four body system listings will no longer be effective. It makes no substantive changes to our rules. Our current regulations³ provide that we may extend, revise, or promulgate the body system listings again. Therefore, we have determined that opportunity for prior comment is

unnecessary, and we are issuing this regulation as a final rule.

In addition, for the reasons cited above, we find good cause for dispensing with the 30-day delay in the effective date of this final rule. 5 U.S.C. 553(d)(3). We are not making any substantive changes to the listings in these body systems. Without an extension of the expiration dates for these listings, we will not have the criteria we need to assess medical impairments in these four body systems at step three of the sequential evaluation processes. We therefore find it is in the public interest to make this final rule effective on the publication date.

Executive Order 12866, as Supplemented by Executive Order 13563

We consulted with the Office of Management and Budget (OMB) and determined that this final rule does not meet the requirements for a significant regulatory action under Executive Order 12866, as supplemented by Executive Order 13563. Therefore, OMB did not review it. We also determined that this final rule meets the plain language requirement of Executive Order 12866.

Regulatory Flexibility Act

We certify that this final rule does not have a significant economic impact on a substantial number of small entities because it affects only individuals. Therefore, a regulatory flexibility analysis is not required under the Regulatory Flexibility Act, as amended.

Paperwork Reduction Act

These rules do not create any new or affect any existing collections and, therefore, do not require Office of Management and Budget approval under the Paperwork Reduction Act.

**Amendments to Regional Consistency
Regulations**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is promulgating revisions to its Regional Consistency regulations to more clearly address the implications of adverse federal court decisions that result from challenges to locally or regionally applicable actions. Specifically, the EPA is introducing a narrow procedural exception under which an EPA Regional office no longer needs to seek Headquarters concurrence to diverge from national policy in geographic areas covered by such an adverse court decision. The revisions will help to foster overall fairness and predictability regarding the scope and impact of judicial decisions under the Clean Air Act (CAA or Act).

DATES: This final rule is effective on September 2, 2016.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–HQ–OAR–2014–0616. All documents in the docket are listed on the <http://www.regulations.gov> Web site. II. Background for Final Rulemaking

On August 19, 2015, the EPA proposed revisions to the Regional Consistency regulations. The preamble to the proposal provided a history of the Regional Consistency regulations, as well as a discussion of a recent D.C. Circuit Court decision, *National Environmental Development Association’s Clean Air Project v. EPA*, 752 F.3d 999 (D.C. Cir. 2014), that led to the EPA’s proposed revisions to alter the agency’s internal process to address court decisions having local or regional applicability. See 80 FR 50252–54, August 19, 2015. This discussion addressed the basis for the proposed changes and our rationale for why we believe the revisions are necessary. This final rulemaking notice does not repeat that discussion, but refers interested readers to the preamble of the proposed rule for this background.

The 60-day public comment period for the proposed rule was extended 15 days in response to commenters’ requests and closed on November 3, 2015. In Section III of this document, we briefly summarize the revisions and summarize and respond to significant comments.
