SUPPLEMENTARY INFORMATION:

Title: Untreated Oranges, Tangerines, and Grapefruit from Mexico Transiting the United States to Foreign Countries.

OMB Control Number: 0579-0303.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into or their dissemination within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS).

The plant quarantine safeguard regulations in 7 CFR part 352 allow certain products or articles that are classified as prohibited or restricted under other APHIS regulations in title 7 to be moved into or through the United States under certain conditions. Such articles include fruits and vegetables that are moved into the United States for: (1) A temporary stay where unloading or landing is not intended; (2) unloading or landing for transshipment and exportation; (3) unloading or landing for transportation and exportation; or (4) unloading and entry at a port other than the port of first arrival. Fruits and vegetables that are moved into the United States under these circumstances are subject to inspection and must be handled in accordance with conditions assigned under the safeguard regulations to prevent the introduction and dissemination of plant pests.

In accordance with § 352.30, untreated oranges, tangerines, and grapefruit from Mexico may be moved into or through the United States in transit to foreign countries under certain conditions to prevent the introduction of plant pests into the United States. These conditions involve the use of information collection activities. Previously, this collection included only a transit permit. In this extension of approval request, we are adding the activities of a transportation and exportation permit, inspection, inspection certificate, and notice of arrival.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.67 hours per response.

Respondents: Shippers.

Estimated annual number of respondents: 3.

Estimated annual number of responses per respondent: 13.

Estimated annual number of responses: 39.

Estimated total annual burden on respondents: 26 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 22nd day of August 2016.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

Submission for OMB Review; Comment Request

August 22, 2016.

The Department of Agriculture has submitted the following information

collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by September 26, 2016 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), *OIRA_Submission@omb.eop.gov* or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.
