

pictograms on the labels. The agency stated above that the consumer may not be forewarned of the importance of the information being conveyed in these labels due to the omitted statement and its location under the capitalized warning heading.

Graco stated its belief that consumers generally understand that child restraints must be installed/secured in a vehicle's seat to be effective. Graco also stated that consumers will be visually drawn to illustrations showing the child restraint being secured in the vehicle, thus, the omitted required phrase does not affect the crashworthiness of the child restraint. Graco has presented no evidence to support this claim. In fact, the agency is aware of instances of gross misuse in the past where child restraints were found completely unattached to the vehicle seat. NHTSA does not agree that consumers necessarily understand the proper installation of child restraints in a vehicle seat, especially in a child restraint without the required statement. Also, NHTSA does not agree that consumers will necessarily be visually drawn to illustrations showing the child restraint being secured in the vehicle.

In summation, the agency believes that all the requirements contained in FMVSS No. 213 pertaining to the proper securement of a child restraint in a vehicle as described in the required statement omitted by Graco and included in the pictograms and printed instruction manuals are necessary to convey this important information.

NHTSA's Decision: In consideration of the foregoing, NHTSA finds that Graco has not met its burden of persuasion that the FMVSS No. 213 noncompliance is inconsequential to motor vehicle safety. Accordingly, Graco's petition is hereby denied and Graco is obligated to provide notification of, and a free remedy for, that noncompliance under 49 U.S.C. 30118 and 30120.

Authority: 49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8.

Associate Administrator for Enforcement.

Bureau of the Fiscal Service

OMB Control Number: 1530-0022.

Type of Review: Revision of a currently approved collection.

Title: Electronic Funds Transfer (EFT) Market Research Study.

Abstract: This information collection is a generic clearance to conduct customer satisfaction surveys, focus groups, and interviews among recipients of federal benefit and vendor payments through EFT. The need for this market research continues to arise from a Congressional directive that accompanied legislation enacted in 1996, as part of the Debt Collection Improvement Act (Pub. L. 104-134), expanding the scope of check recipients required to use direct deposit to receive Federal benefit payments (see 31 U.S.C. 3332). Congress directed Treasury to "study the socioeconomic and

demographic characteristics of those who currently do not have Direct Deposit and determine how best to increase usage among all groups.” 142 Cong. Rec. H4090 (daily ed. April 25, 1996).

Affected Public: Individuals or households.

Estimated Total Annual Burden Hours: 5,200.
