SUMMARY: The Department of Energy (DOE) has submitted to the Office of Management and Budget (OMB) for clearance a proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995. The proposed collection will gather opinions of experts in industry and other organizations regarding the impact on the development and diffusion of energy-efficient technologies and techniques in the construction of residential buildings of DOE/EERE Building Technologies Office (BTO) investments. Expert opinions are necessary to characterize expected patterns of technology development and diffusion in the absence of DOE investments, and so (by comparing these expectations with actual observations) estimate the difference DOE investments have made. This information is needed by DOE for budget justification and strategic planning. Respondents will include representatives of production builder companies (including companies that received DOE R&D funding and companies that received no direct funding from DOE).

DATES: Comments regarding this collection must be received on or before October 13, 2016. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible.
