

Funding Amount: Up to \$977,400 in FY 2016, and subject to availability of appropriated funds, approximately \$750,000 in FYs 2017 and 2018.

Authority: Consolidated Appropriations Act, 2016 (Pub L. 114–113), Division H, Title II CFDA Number: 93.928.

Justification: The Jurisdictional Approach to Curing Hepatitis C among HIV/HCV Coinfected People of Color demonstration project seeks to: (1) Increase jurisdiction-level capacity to provide comprehensive screening, care and treatment for HCV among HIV/HCV co-infected people particularly in disproportionately affected racial and ethnic minority communities; (2) increase the numbers of HIV/HCV co-infected people who are diagnosed with hepatitis C, treated, and cured; (3) identify and provide technical assistance for jurisdictions to reach goals (1) and (2); and, (4) develop a plan for evaluation of the program impact.

During the original application period, as outlined in Funding Opportunity Announcement HRSA–16–189, no Ryan White Part B recipients (States) applied. This non-competitive single source cooperative agreement award will provide important resources in a part of the country that would not otherwise have any coverage.

NASTAD is a national non-profit alliance of state health department program directors who are responsible for administering HIV/AIDS and viral hepatitis health care, prevention, education, and supportive services programs funded by state and federal governments. These include programs funded by the Centers for Disease Control and Prevention and HRSA. In working closely with its members, NASTAD is dedicated to reducing the incidence of HIV/AIDS and HCV infections in the U.S. and its territories, and supports the provision of comprehensive, compassionate, and high quality care and prevention services to all persons living with HIV/AIDS and HCV, by ensuring responsible and sound public policies and practices.

NASTAD's hepatitis team provides guidance and technical assistance to strengthen the capacity of state and local health departments to develop, maintain, and enhance comprehensive hepatitis programs that address the continuum from prevention through cure. This infrastructure, experience, and strategic partnership between state hepatitis coordinators and AIDS directors make NASTAD the appropriate entity to receive a single-source funding award in an effort to

facilitate engagement between the states and HRSA's viral hepatitis efforts.

Dated: September 26, 2016.

James Macrae,

Acting Administrator.

Agency Information Collection Activities; Proposed Collection; Public Comment Request

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, OS seeks comments from the public regarding the burden estimate below or any other aspect of the ICR.

DATES: Comments on the ICR must be received on or before November 29, 2016.

ADDRESSES: Submit your comments to *Information.Collection.Clearance@hhs.gov* or by calling (202) 690–5683.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the document identifier 0990–New—60D for reference.

Information Collection Request Title: Assessment of the Impact of Energy Development on the Behavioral Health of Women in Western North Dakota and Eastern Montana.

Abstract: Region VIII Office of the Assistant Secretary for Health (OASH), Office on Women's Health (OWH) is requesting approval from the Office of Management and Budget (OMB). The Office on Women's Health (OWH) in the Office of the Assistant Secretary for Health, U.S. Department of Health and Human Services (HHS) was established in 1991. Its mission is to provide national leadership and coordination to improve the health of women and girls through policy, education and model programs. The vision of the Office on Women's Health is that all women and

girls achieve the best possible health. OASH/OWH has ten regional offices located throughout the country. As a leader in women health, OWH supports the development of culturally-based, gender-sensitive programs to address health disparities. Region VIII OASH/OWH is interested in improving women's behavioral health associated with the impact of energy development through gender based data collection and analysis. The discovery and subsequent development of the Parshall Oil Field within the Bakken region of Western North Dakota has led to significant economic opportunity and population growth in the region (Eastern Montana and Western North Dakota). Rapid population growth has many intended and unintended consequences, both positive and negative, on the social and economic environment of the region and, consequently, the population's health and well-being. There are well-documented environmental health issues associated with oil and gas development, including air, water, soil, noise, and light pollution. However, there are additional social, physical and mental health effects that are less well documented. Current research is very limited, but preliminary evidence suggests that women have unmet behavioral health needs due in part to the energy development and population surge in region. In 2013, The U.S. Department of Health and Human Services (HHS), Region VIII Offices, including the Office of the Assistant Secretary for Health (OASH), Office on Women's Health (OWH) began to have discussions directly with state/local contacts about the impact this was having on public health and the specific impacts on women. Given this history and context, the Region VIII OASH/OWH, is undertaking an assessment to examine the impact of energy development on women's behavioral health in Western North Dakota and Eastern Montana.

Likely Respondents: Data for this assessment will be collected through three mechanisms—a survey of women living in the assessment geography, approximately 20 focus groups with a cross-section of women and other key groups living in the assessment geography, and approximately 40 interviews with key leaders and stakeholders across a variety of governmental and non-governmental sectors. Combined, these data collection mechanisms will provide a quantitative and qualitative portrait of women's behavioral health in the region.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Community Survey	500	1	15/60	125
Focus Groups	240	1	90/60	360
Interviews	40	1	1/60	40
Total

OS specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Darius Taylor,

Information Collection Clearance Officer.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute of Allergy and Infectious Diseases; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of Allergy and Infectious Diseases Special Emphasis Panel; NIAID Investigator Initiated Program Project Applications (P01).

Date: October 13, 2016.

Time: 11:30 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 5601 Fishers Lane, Rockville, MD 20892 (Telephone Conference Call).

Contact Person: Jay R. Radke, Ph.D., Scientific Review Officer, Scientific Review

Program, Division of Extramural Activities, Room #3G11B National Institutes of Health, NIAID, 5601 Fishers Lane MSC-9823, Bethesda, MD 20892-9823, (240) 669-5046, jay.radke@nih.gov.

This notice is being published less than 15 days prior to the meeting due to the timing limitations imposed by the review and funding cycle.
