1,1,1,2-Tetrafluoroethane (R-134a) From the People's Republic of China: Preliminary Determination of Sales at Less-Than-Fair Value and Affirmative Determination of Critical Circumstances, in Part, and Postponement of Final Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Effective October 7, 2016.

SUMMARY: The Department of Commerce ("Department") preliminarily determines that 1,1,1,2-Tetrafluoroethane ("R-134a") from the People's Republic of China ("PRC") is being, or is likely to be, sold in the United States at less than fair value ("LTFV"). The period of investigation ("POI") is July 1, 2015, through December 31, 2015. The estimated margins of sales at LTFV are shown in the "Preliminary Determination" section of this notice. The final determination will be issued 75 days after publication of this preliminary determination in the **Federal Register**. Interested parties are invited to comment on this preliminary determination.

FOR FURTHER INFORMATION CONTACT: Keith Haynes or Paul Stolz, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-5139 or, (202) 482-4474 respectively.

SUPPLEMENTARY INFORMATION:

Scope of the Investigation

The product subject to this investigation is 1,1,1,2-Tetrafluoroethane, R-134a. For a full description of the scope of this investigation, *see* the "Scope of the Investigation," in Appendix I.

Methodology

The Department is conducting this investigation in accordance with section 731 of the Tariff Act of 1930, as amended ("the Act"). We calculated export prices in accordance with section 772 of the Act. Because the PRC is a non-market economy within the meaning of section 771(18) of the Act, normal value ("NV") was calculated in accordance with section 773(c) of the Act.

For a full description of the methodology underlying our conclusions, *see* the Preliminary Decision Memorandum hereby adopted by this notice.¹ The Preliminary Decision Memorandum is a public document and is on file electronically *via* Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("ACCESS"). ACCESS is available to registered users at <https://access.trade.gov>, and is available to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic version of the Preliminary Decision Memorandum are identical in content.

Preliminary Affirmative Determination of Critical Circumstances

On September 9, 2016, Petitioners filed a timely critical circumstances allegation pursuant to section 733(e)(1) of the Act and 19 CFR 351.206 with respect to imports of the subject merchandise.² We preliminarily determine that critical circumstances exist for the non-selected separate rate respondents and the PRC-wide entity, but do not exist for the mandatory respondent, Zhejiang Sanmei Chemical

Industry Co., Ltd.³ For a full description of the methodology and the results of our analysis, *see* the Preliminary Decision Memorandum.

Use of Adverse Facts Available

The Department preliminarily finds that the PRC-wide entity, which includes certain PRC exporters and/or producers that did not respond to the Department's requests for information, withheld information requested by the Department and significantly impeded this proceeding by not submitting requested information. Specifically, 26 companies within the PRC-wide entity failed to respond to the Department's request for quantity and value ("Q&V") information.⁴ Furthermore, the Department finds that the PRC-wide entity's lack of participation, including the failure of certain parts of the PRC-wide entity to submit Q&V information, constitutes circumstances under which it is reasonable to conclude that the PRC-wide entity as a whole failed to cooperate to the best of its ability to comply with the Department's request for information.⁵

Therefore, we preliminarily find that an adverse inference is warranted in selecting from among the facts otherwise available with respect to the PRC-wide entity in accordance with sections 776(a) and 776(b) of the Act and 19 CFR 351.308(a). As adverse facts available, we have preliminarily assigned the PRC-wide entity a rate of 187.71 percent. Further, with respect to critical circumstances, we have preliminarily determined, again, based on adverse facts available, that the PRC-wide entity dumped "massive imports" over a "relatively short period." For further explanation and analysis, *see* the Preliminary Decision Memorandum.

Combination Rates

In the *Initiation Notice*,⁶ the Department stated that it would calculate combination rates for the respondents that are eligible for a
