

Three, how resting non-displayed orders would trade, how order with a STPN Modifier would be handled, and that g-Quotes and Buy Minus/Zero Plus orders will be rejected. The Exchange also proposes to only permit buy and sell orders that are entered into the Cross Function pursuant to Supplementary Material .10 to Rule 76 to be eligible for the Block Size order exception to the Trade-at Prohibition.³⁸

In addition, the Exchange proposes to amend provisions related to two exceptions to the Trade-at Prohibition. First, the Exchange proposes amend the TAISO definition to reflect that ISOs may be routed to the full displayed size of a Protected Quotation that is traded-at and to make the corresponding change to the specific trade-at exception. Second, the Exchange proposes to amend the exception for Block Size orders to allow an order of Block Size to be executed on multiple Trading Centers.

The Commission believes that these changes are reasonably designed to comply with the Plan. Further, the Commission believes that the proposed changes that are targeted at particular Test Groups are necessary for compliance with the Plan. Accordingly, the Commission finds that these changes are consistent with Section 6(b)(5) of the Act³⁹ and Rule 608 of Regulation NMS⁴⁰ because they implement the Plan and clarify Exchange Rules.

In addition, the Exchange proposes to adopt a rule to specify how the Exchange will calculate LULD Price Bands after the Exchange opens or reopens. The Commission believes that this change should help to ensure that trading does not occur outside of Price Bands when LULD is in effect.

Finally, the Exchange proposes to specify that Trading Collars that are not in the MPV would be rounded down to the nearest price. The Commission believes that this change should provide clarity in the Exchange's rules.

For these reasons, the Commission finds that the proposed rule change, as modified by Amendment No. 2, is consistent with the requirements of the Act and Rule 608 of Regulation NMS.

³⁸ The Commission notes that the orders entered into the Cross Function for purposes of relying on the Block Size exception must satisfy the provisions of the exception, including that it may not be an aggregation of non-block orders, or broken into orders smaller than Block Size prior to submitting the order the Trading Center for execution. See Exchange Rule 67(e)(4)(C)(iii).

VI. Accelerated Approval of Proposed Rule Change, as Modified by Amendment No. 2

The Commission finds good cause to approve the proposed rule change, as

modified by Amendment No. 2, prior to the thirtieth day after the date of publication of notice of Amendment No. 2 in the **Federal Register**. As described above, the Exchange proposes to amend its rules to comply with the Plan and clarify other rules related to LULD and Trading Collars.

The Commission believes that the proposals related to LULD Price Bands and Trading Collars should provide clarity on instances where they are not in the MPV. The Commission believes that the proposals related to the Pilot are designed to ensure compliance with the Plan. The Commission notes that the Pilot is scheduled to start on October 3, 2016, and accelerated approval would ensure that the rules of the Exchange would be in place for the start of the Pilot. Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,⁴¹ to approve the proposed rule change, as modified by Amendment No. 2, on an accelerated basis.

VII. Conclusion

It is therefore ordered that, pursuant to Section 19(b)(2) of the Act,⁴² the proposed rule change (SR-NYSEMKT-2016-83), as modified by Amendment No. 2, be and hereby is approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁴³

Deputy Secretary.
