

We believe Nissan's estimate of 10 hours is reasonable and we will adopt this estimate burden calculation. Accordingly, we estimate that 850 burden hours are associated with this 60-day interim notification requirement (854 recalls \times .10 = 85 recalls; 85 recalls times 10 hours per recall = 850 hours).

As for costs associated with notifying owners and purchasers of recalls, we continue to estimate this costs \$1.50 per first class mail notification, on average. This cost estimate includes the costs of printing, mailing, as well as the costs vehicle manufacturers may pay to third-party vendors to acquire the names and addresses of the current registered owners from state and territory departments of motor vehicles. In reviewing recent recall figures, we determined that an estimated 58.4 million letters are mailed yearly totaling \$87,600,000 (\$1.50 per letter \times 58,400,000 letters). The requirement in 49 CFR part 577 for a manufacturer to notify their affected customers within 60 days would add an additional \$8,760,000 (58,400,000 letters \times .10 requiring interim owner notifications = 5,840,000 letters; 5,840,000 \times \$1.50 = \$8,760,000). In total we estimate that the current 49 CFR part 577 requirements cost manufacturers a total of \$96,360,000 annually (\$87,600,000 owner notification letters + \$8,760,000 interim notification letters = \$96,360,000). Nissan commented that they agree with the Agency's estimate for this cost estimate.

Due to the past burdens associated with the requirement that certain vehicle manufacturers setup VIN Look-up systems for their recalled vehicles, many estimates have been removed from this information collection as these burdens and costs have already occurred. The 49 CFR part 573 and 49 CFR part 577 requirements found in today's notice will require 36,070 hours each year for OMB Control Number 2127-0004, a decrease of 10,068 burden hours from the previously approved collection of 46,138 hours. Additionally, manufacturers impacted by 49 CFR part 573 and 49 CFR part 577 requirements will incur a recurring annual cost estimated at \$96,630,000 total.

Estimated Number of Respondents: NHTSA receives reports of defect or noncompliance from roughly 275 manufacturers per year. Accordingly, we estimate that there will be approximately 275 manufacturers per year filing defect or noncompliance reports and completing the other information collection responsibilities associated with those filings.

In summary, we estimate that there will be a total of 275 respondents per

year associated with OMB No. 2127-0004.

Issued on: October 4, 2016.

Acting Director, Office of Defects Investigation.
