

change.¹⁵ Based on the foregoing, which is explained in greater detail in the Preliminary Decision Memorandum, we preliminarily determine that Zhejiang ERA is the successor-in-interest to Era Solar and, as such, that it is entitled to Zhejiang ERA's AD cash deposit rate with respect to entries of subject merchandise.

Should our final results remain the same as these preliminary results, effective the date of publication of the final results, we will instruct U.S. Customs and Border Protection to suspend liquidation of entries of subject merchandise exported by Zhejiang ERA at the AD cash deposit rate applicable to Era Solar.

Public Comment

Interested parties may submit case briefs not later than 14 days after the date of publication of this notice.¹⁶ Rebuttal briefs, which must be limited to issues raised in case briefs, may be filed not later than seven days after the due date for case briefs.¹⁷ Parties who submit case briefs or rebuttal briefs in this changed circumstances review are requested to submit with each argument: (1) A statement of the issue and (2) a brief summary of the argument with an electronic version included.¹⁸

Any interested party may request a hearing within 14 days of publication of this notice.¹⁹ Hearing requests should contain the following information: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. Oral presentations at the hearing will be limited to issues raised in the briefs. If a request for a hearing is made, parties will be notified of the time and date for the hearing to be held at the U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230 in a room to be determined.²⁰

All submissions, with limited exceptions, must be filed electronically using Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("ACCESS").²¹ An electronically filed

document must be received successfully in its entirety by 5 p.m. Eastern Time ("ET") on the due date. Documents excepted from the electronic submission requirements must be filed manually (*i.e.*, in paper form) with the APO/Dockets Unit in Room 18022 and stamped with the date and time of receipt by 5 p.m. ET on the due date.²²

Unless extended, consistent with 19 CFR 351.216(e), we intend to issue the final results of this changed-circumstances review no later than 270 days after the date on which this review was initiated or within 45 days if all parties agree to the outcome of the review.

We are issuing and publishing this initiation and preliminary results notice in accordance with sections 751(b)(1) and 777(i)(1) of the Act and 19 CFR 351.216 and 351.221(c)(3).

Dated: October 27, 2016.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XE997

Fisheries of the South Atlantic; South Atlantic Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting of the South Atlantic Fishery Management Council's (Council) Scientific and Statistical Committee (SSC).

SUMMARY: The Council will hold a meeting of its SSC to review the available data for Spiny Lobster and make recommendations for setting the Overfishing Limit (OFL) and Acceptable Biological Catch (ABC).

DATES: The SSC meeting will be held via webinar on Monday, November 21, 2016, from 9 a.m. to 12 p.m.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Mike

in the Central Records Unit, Room B8024 of the main Department of Commerce building.

²² See *Antidumping and Countervailing Duty Proceedings: Electronic Filing Procedures; Administrative Protective Order Procedures*, 76 FR 39263 (July 6, 2011).

Errigo at the Council office (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of the webinar.

Council address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Mike Errigo; 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone (843) 571-4366 or toll free (866) SAFMC-10; fax (843) 769-4520; email: mike.errigo@safmc.net.

SUPPLEMENTARY INFORMATION: This meeting is held to review the available data for *Spiny Lobster* and make recommendations for OFL and ABC. The SSC decided at their October 18-20, 2016 meeting in Charleston, SC that they did not have enough information to make recommendations of OFL and ABC for Spiny Lobster and requested a webinar be held to review the available information.

Items to be addressed during this meeting:

Review the available information for *Spiny Lobster* and provide recommendations of OFL and ABC for the Spiny Lobster fishery.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 28, 2016.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration (NOAA)

Environmental Assessment (EA) for the Proposed Relocation of the Atmospheric Turbulence and Diffusion Division of the Air Resources Laboratory in Oak Ridge, TN

AGENCY: Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce (DOC).

¹⁵ *Id.*

¹⁶ The Department is exercising its discretion under 19 CFR 351.309(c)(1)(ii) to alter the time limit for the filing of case briefs.

¹⁷ The Department is exercising its discretion under 19 CFR 351.309(d)(1) to alter the time limit for the filing of rebuttal briefs.

¹⁸ See 19 CFR 351.309(c)(2) and (d)(2).

¹⁹ The Department is exercising its discretion under 19 CFR 351.310(c) to alter the time limit for requesting a hearing.

²⁰ See 19 CFR 351.310(d).

²¹ ACCESS is available to registered users at <https://access.trade.gov> and available to all parties

ACTION: Notice of intent to prepare an EA; request for comments.

SUMMARY: NOAA announces its intention to prepare an EA in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), for the proposed relocation of NOAA/OAR facilities in Oak Ridge, TN.

DATES: Written comments must be received on or before December 5, 2016.

ADDRESSES: Written comments on suggested alternatives and potential impacts should be sent to Barbara Shifflett, Management and Program Analyst, NOAA/ATDD, PO Box 2456, Oak Ridge, TN 37831. Comments may also be submitted via facsimile to 865-220-1733 or by email to Barbara.Shifflett@noaa.gov.

SUPPLEMENTARY INFORMATION: The proposed action would involve relocation of NOAA/OAR offices and laboratories within the Oak Ridge, TN area to a larger, modern facility located in an appropriate research setting. The Atmospheric Turbulence and Diffusion Division (ATDD), located in Oak Ridge, TN, is part of NOAA's Air Resources Laboratory (ARL). Research conducted at this laboratory includes experimental and theoretical research on air quality issues, urban dispersion studies and in-situ testbed development, and land-atmosphere interactions and the interactions with regional water budgets for representative U.S. ecosystems.

The current physical space for ATDD consists of four buildings that together provide office space, laboratory space, staging and assembly and a machine shop. In addition, six shipping/storage containers are used to securely store field equipment and supplies, meteorological instrumentation, and power systems for remote climate stations. The current ATDD facilities are approximately 17,573 square feet which includes office space, auditorium and kitchen space, warehouse and storage space and staging areas. Current space can house up to 36 staff, including full-time employees, visiting scientists and students, and contract employees.

ATDD needs additional space to accommodate offices for staff expansion, visiting scientists and students, as well as space for additional lab work, engineering assembly, sensor calibration and testing, and sensor prototyping and evaluation. NOAA/OAR needs at least 12,500 additional or 30,000 total square feet of space to effectively house personnel and equipment necessary to meet ATDD's mission.

Research programs at ATDD will continue over the next decade and

beyond at approximately their current levels, with moderate growth in staffing to accommodate emerging programs associated with water and drought planning, climate testbeds and air-surface exchange research. Partnerships with several universities will continue and new partnerships will be established, with a resulting small influx of students and faculty for short and long-term visits. The need for shop, lab, and storage space for testing and evaluation of new sensor technologies will continue to grow.

Programs are often delayed by having to displace partially completed work from available space to complete a project or repair a system with a more urgent timeline. The existing facility severely limits ATDD's ability to implement a primary NOAA goal of working with private industry, universities, and national and international agencies to create and leverage partnerships for more effective research; we frequently encounter such opportunities, but are limited when offering space to accommodate visitors to work with our existing staff.

ATDD's property has historically been used by scientists as a testbed for many systems prior to their deployment into the field. Given the increase in traffic and commercial development in the local area, the testbed data are suspect with regards to accuracy of measurements and actual reliability.

The purpose of the public scoping process for this EA is to determine relevant issues that will influence the scope of the environmental analysis, including potential alternatives, and the extent to which those issues and impacts will be analyzed in the EA. Federal, state, and local agencies, along with other stakeholders that may be interested in or affected by NOAA's decision on this project are invited to participate in the scoping process and, if eligible, may request or be requested by NOAA to participate as a cooperating agency.

Dated: October 28, 2016.

Jason Donaldson,

Chief Financial Officer, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XE996

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council (MAFMC) will convene a public peer review panel meeting.

DATES: The meeting will be held on Friday, November 18, 2016, from 9 a.m. to 5 p.m. See **SUPPLEMENTARY INFORMATION** for agenda details.

ADDRESSES: The meeting will be held at the DoubleTree by Hilton BWI Airport, 890 Elkridge Landing Rd., Linthicum Heights, MD 21090; telephone: (410) 859-8400.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; Web site: www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: The MAFMC will convene a peer review panel consisting of members of the MAFMC's Scientific and Statistical Committee (SSC) and other outside experts, to review a summer flounder allocation model project. The MAFMC contracted the development of this project to inform consideration of potential changes to the allocation of annual catch and landings limits between the commercial and recreational sectors of the summer flounder fishery. This analysis aims to determine which allocations would maximize benefits to the commercial and recreational sectors. The results of this project and peer review are scheduled to be presented to the MAFMC in December 2016.

A detailed agenda and background documents will be made available on the Council's Web site (www.mafmc.org) prior to the meeting.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M.
