SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the general provisions of 40 CFR part 60, subpart A, as well as the specific requirements at 40 CFR part 60, subpart L. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with the standards.

Form Numbers: None.

Respondents/affected entities: Secondary lead smelting facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart L).

Estimated number of respondents: 14 (total).

Frequency of response: Initially.

Total estimated burden: 37 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,720 (per year); there are neither annualized capital/startup nor operation & maintenance costs.

Changes in the Estimates: In this ICR, there is a decrease in the number of estimated sources from 25 to 14 due to the assumption of a shrinking sector. However, this ICR also modifies the burden item for reading and understanding the rule to include time for all existing sources to re-familiarize themselves with the regulatory requirements every year. As a result, there is no net change in the labor hours compared to the previous ICR. The reduced number of estimated sources

also leads to a decrease in the number of responses.

Acting Director, Collection Strategies Division.

Abstract: In order to effectively implement and enforce final changes to 40 CFR part 258 on a State level, owners/operators of municipal solid waste landfills have to comply with the final reporting and recordkeeping requirements. Respondents include owners or operators of new municipal solid waste landfills (MSWLFs), existing MSWLFs, and lateral expansions of existing MSWLFs. The respondents, in complying with 40 CFR part 258, are

required to record information in the facility operating record, pursuant to § 258.29, as it becomes available. The operating record must be supplied to the State as requested until the end of the post-closure care period of the MSWLF. The information collected will be used by the State Director to confirm owner or operator compliance with the regulations under Part 258. These owners or operators could include Federal, State, and local governments, and private waste management companies. Facilities in NAICS codes 9221, 5622, 3252, 3251 and 3253 may be affected by this rule.

Form Numbers: None.

Respondents/affected entities:

Business or other for-profit, as well as State, Local, and Tribal governments.

Respondent's obligation to respond: Mandatory, see 40 CFR part 258.29.

Estimated number of respondents: 3,800.

Frequency of response: On occasion.

Total estimated burden: 204,808 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$2,211,000 (per year), includes \$1,831,00 annualized capital or operation & maintenance costs.

Changes in Estimates: There is increase of 60 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to the increased number of states adopting the RD&D section (258.4) since the last ICR update.

Dated: February 12, 2016.
