SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Slope and Shaft Sinking Plans information collection requirements contained in regulations 30 CFR 77.1900 that requires an underground coal mine operator to submit for approval a plan that will provide for the safety of workers in each slope or shaft that is commenced or extended from the surface to the underground coal mine. Each plan includes the name and location of the mine; name and address of the mine operator; a description of the construction work, methods to be used in construction of the slope or shaft, and whether all or part of the work will be performed by a contractor; the elevation, depth, and dimensions of the slope or shaft; the location and elevation of the coalbed; the general characteristics of the strata through which the slope or shaft will be developed; the type of equipment which the operator proposes to use; the system of ventilation to be used; and safeguards for the prevention of caving during excavation. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811 and 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an

information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0019.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 3, 2016 (81 FR 68064).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0019. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to maintain PRA authority for information collection activities related to Prohibited Transaction Class Exemption (PTE) 1985–68, which permits an employee benefit plan to invest in an employer’s customer notes under circumstances the Employee Retirement Income Security Act of 1974 (ERISA) and Internal Revenue Code of 1986 would otherwise prohibit. More specifically, this PTE describes the conditions under which a plan may acquire customer notes accepted by an employer of employees covered by the plan in the ordinary course of the employer’s business activity and, thus, be exempt from the prohibited transaction restrictions; provided, the exemption conditions are met. The PTE covers sales as well as contributions of customer notes by an employer to its plan. The customer notes must have been accepted by the employer in its primary business activity as the seller of tangible personal property that is being financed by the notes, so that the exemption does not apply to notes of an employer’s affiliate. The PTE requires a plan to maintain all necessary records pertaining to the affected transactions for a period of six years and to make those records available to certain designated persons upon request. ERISA section 408(a) authorizes this information collection. *See* 29 U.S.C. 1108(a).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of

law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210–0094.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on February 28, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 28, 2016 (81 FR 75157).
