Departmental Management—Office of Homeland Security and Emergency Coordination

Title: USDA PIV Request for Credential.

OMB Control Number: 0505–0022.

Summary of Collection: The Homeland Security Presidential Directive (HSPD)–12 information collection is required for establishing the applicant's identity for Personal Identity Verification (PIV) credential issuance. The information requested must be provided by Federal contractors and other applicable individuals (including all employees and some affiliates) when applying for a USDA PIV credential (identification card), also known as "LincPass." The information is necessary to comply with the requirements outlined in Homeland Security Presidential Directive (HSPD) 12, and Federal Information Processing Standard (FIPS) 201–2. USDA has implemented an automated identity proofing, registration, and issuance process consistent with the requirements outlined in FIPS 201–2.

Need and Use of the Information: Information will be collected using form AD 1197, Request for USDA Identification (ID) Badge, to issue a site badge to grant individuals short term access to facilities. USDA has chosen to use GSA's USAccess program for HSPD–12 credentialing and identity management. The automated system includes six separate and distinct roles to ensure no one single individual can issue a credential without further validation from another authorized role holder. An automated notification workflow provides streamlined communication between role holder and the applicant, notifying each as to the respective steps in the process. If the information is not collected, Federal and non-Federal employees may not be permitted in some facilities and will not be allowed access to government computer systems.

Description of Respondents: Individuals or households.

Number of Respondents: 12,000.

Frequency of Responses: Reporting: On occasion.

Animal and Plant Health Inspection Service

Title: Importation of Fresh Bananas from the Philippines into the Continental United States.

OMB Control Number: 0579–0394.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. The regulations in “Subpart-Fruit and Vegetables” (7 CFR 319.56, referred to as the regulations) prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination of plant pests that are new to or not widely distributed within the United States.

Need and Use of the Information: The Animal and Plant Health Inspection Service (APHIS) uses the following information collection activities to allow the import of fresh bananas from the Philippines into the continental United States in accordance with the requirements which will restrict any plant pests from entering the United States: (1) Bilateral Workplan; (2) Production Site Registration; (3) Monitoring and Oversight; (4) Maintain All Forms and Documents that Include Fruit Fly Detections and Updating Records; (5) Carton Marking with Production Site Number; (6) Hard Green Stage Harvest Certification; (7) Investigations; (8) Fruit Fly Trapping for Low Pest Prevalence; (9) Shipping Documents; and (10) Phytosanitary Certificates with Declaration. Failure to collect this information would cripple APHIS’ ability to ensure that bananas from the Philippines are not carrying plant pests.

Description of Respondents: Business or other for-profit; Federal Government.

Number of Respondents: 41.

Frequency of Responses: Recordkeeping; Reporting; Other: One time.

Total Burden Hours: 1,330.

SUPPLEMENTARY INFORMATION:

Title: Federal Plant Pest and Noxious Weeds Regulations.

OMB Control Number: 0579–0054.

Type of Request: Reinstatement of an information collection.

Abstract: The Plant Protection Act (the Act, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, exportation, or interstate movement of plants, plant products, biological control organisms, noxious weeds, articles, or means of conveyance, if the Secretary determines that the prohibition or restriction is necessary to prevent the introduction of plant pests or noxious weeds into the United States or their dissemination within the United States. The associated regulations that were issued by the Animal and Plant Health Inspection Service (APHIS) are located in 7 CFR parts 330 and 360.

These regulations contain information collection activities that include, but are not limited to, applications, including applications for permits to import regulated articles (*e.g.*, plant pests, noxious weeds, or soil) or to move regulated articles interstate; labels; compliance agreements; and appeal, denial, and cancellation of permits. These information collection activities allow APHIS to evaluate the risks associated with the importation or interstate movement of plant pests, noxious weeds, and soil, and also assists with developing risk mitigations, if necessary, for the importation or interstate movement of plant pests, noxious weeds, and soil.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of
