The ICR describes the information collection and its expected burden.

DATES: Comments must be submitted on or before April 13, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Information Collection Clearance Officer, Office of Railroad Safety, Regulatory Analysis Division, RRS–21, Federal Railroad Administration, 1200 New Jersey Avenue SE., Mail Stop 25, Washington, DC 20590 (Telephone: (202) 493–6292); or Ms. Kim Toone, Information Collection Clearance Officer, Office of Administration, Office of Information Technology, RAD–20, Federal Railroad Administration, 1200 New Jersey Avenue SE., Mail Stop 35, Washington, DC 20590 (Telephone: (202) 493–6132). (These telephone numbers are not toll free.)

SUPPLEMENTARY INFORMATION: The PRA, 44 U.S.C. 3501–3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), and 1320.12. On November 16, 2016, FRA published a 60-day notice in the **Federal Register** soliciting comment on the ICR for which it is now seeking OMB approval. See 81 FR 80714. FRA received no comments in response to this notice.

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507(b)–(c); 5 CFR 1320.12(d); see also 60 FR 44978, 44983, Aug. 29, 1995. OMB believes the 30-day

notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); see also 60 FR 44983, Aug. 29, 1995.

The summary below describes the ICR and its expected burden. FRA is submitting the new request for clearance by OMB as the PRA requires.

Title: Track Safety Standards.

OMB Control Number: 2130–0010.

Abstract: Part 213 of Title 49 of the Code of Federal Regulations (Track Safety Standards) prescribes minimum safety requirements for railroad track that is part of the general railroad system of transportation. While the requirements prescribed in Part 213 generally apply to specific track conditions existing in isolation, a combination of track conditions, none of which individually amounts to a deviation from regulatory requirements, may require remedial action to ensure safe operations over that track. Qualified persons inspect track and take action to allow safe passage of trains and ensure compliance with the Track Safety Standards.

In March 2013, FRA amended the Track Safety Standards and Passenger Equipment Safety Standards applicable to high-speed and high cant deficiency train operations to promote the safe interaction of rail vehicles with the tracks over which they operate. The final rule revised limits for vehicle response to track perturbations and added new limits. The rule accounts for a range of vehicle types currently used and likely may be used in future high-speed or high cant deficiency rail operations, or both. The rule is based on the results of simulation studies designed to identify track geometry irregularities associated with unsafe wheel/rail forces and accelerations, thorough reviews of vehicle qualification and revenue service test data, and consideration of international practices. FRA uses this information collection to ensure and enhance rail safety by monitoring railroads' compliance with regulatory requirements.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

OMB Control Number: 2130-0593.

Abstract: This collection of information is necessary to enable FRA to garner customer and stakeholder feedback in an efficient and timely manner, consistent with our commitment to improving service delivery. The information collected from our customers and stakeholders will help ensure users have an effective, efficient, and satisfying experience with FRA's programs. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with service, and focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow ongoing, collaborative, and actionable communications between

FRA and its customers and stakeholders. It also allows feedback to contribute directly to the improvement of program management.

Improving FRA's programs requires ongoing assessment of service delivery, meaning a systematic review of the operation of a program compared to a set of explicit or implicit standards as a means of contributing to the continuous improvement of the program. FRA will collect, analyze, and interpret information gathered through this generic clearance to identify strengths and weaknesses of current services and make improvements in service delivery based on feedback. The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. FRA will assess responses to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on FRA's services will be unavailable.

Type of Request: Extension without change of a previously approved collection.
