DEPARTMENT OF ENERGY

[FE Docket No. 16–205–LNG]

Dominion Cove Point LNG, LP; Application for Blanket Authorization To Export Liquefied Natural Gas to Non-Free Trade Agreement Nations on a Short-Term Basis

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on November 23, 2016, by Dominion Cove Point LNG, LP (DCP). The Application requests blanket authorization to export liquefied natural gas (LNG) in an amount up to the equivalent of 250 billion cubic feet (Bcf) of natural gas prior to the commencement of commercial operation of DCP's Liquefaction Project at its existing Cove Point LNG Terminal in Calvert County, Maryland. DCP requests authorization to export such "Commissioning Volumes" over a period of two years commencing on the date of the first short-term export, which is expected to occur during the fourth quarter of 2017 and not later than six months thereafter. The LNG would be

exported from the Cove Point LNG Terminal to any country with the capacity to import LNG in ocean-going carriers and with which trade is not prohibited by U.S. law or policy, including both countries with which the United States has entered into a free trade agreement requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). DCP requests this authorization on its own behalf and as agent for other entities who hold title to the natural gas at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in DCP's Application, posted on the DOE/FE Web site at: <https://energy.gov/fe/dominion-cove-point-lng-lp-16-205-lng-blanket-authorization-export-lng-ftanfta>. Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, May 12, 2017.

SUPPLEMENTARY INFORMATION: DCP requests a short-term blanket authorization to export Commissioning Volumes—that is, the volumes of LNG produced prior to the start of full commercial operations of DCP's Liquefaction Project. DCP intends to source these Commissioning Volumes from domestically produced natural gas and/or from LNG previously imported by vessel at the Cove Point LNG
