Farm Service Agency

Title: Guaranteed Farm Loans.

OMB Control Number: 0560-0155.

Summary of Collection: The Consolidated Farm and Rural Development Act (CONACT), as amended, authorize the Secretary of Agriculture to make and service loans guaranteed by the Farm Service Agency (FSA) to eligible farmers and ranchers. The statutory authority for the guaranteed loan program is set out in the Code of Federal Regulations, title 7, chapter VII, part 762. The loans made and serviced under part 762 include farm operating, farm ownership loans. FSA also provides guarantees of loans made by private sellers of a farm or ranch on a land contract sales basis. The reporting requirements imposed on the public by the regulations at 7 CFR part 763 are necessary to administer the Land Contract guaranteed loan program in accordance with statutory requirements of the CONACT as specified in the 2008 Farm Bill. FSA uses Agency forms and written evidence to collect needed information. FSA is also establishing the EZ Guarantee Program that is providing a guarantee for operating loans (OLs) and Farm ownerships (FOs) up to \$50,000, and implementing the Micro Lender Program (MLP) status for the nontraditional lenders to participate in the Guaranteed ML Program.

Need and Use of the Information: The basis objective of the guaranteed loan program is to provide credit to applicants who are unable to obtain credit from lending institutions without a guarantee. The information collected is used to determine lender and loan applicant eligibility for farm loan guarantees, and to ensure the lender protects the government's financial interest. The information FSA collects is needed to effectively administer the FSA guaranteed farm loan programs. The information is collected by the FSA loan official in consultation with participating lenders.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection. The National Environmental Policy Act (NEPA) (42 U.S.C. 4321-4347) and the Council on Environmental Quality's (CEQ) Regulations for Implementing NEPA (40 CFR parts 1500-1508) require that federal agencies complete an environmental analysis for all major federal actions significantly affecting the environment. Those actions may include a federal agency's decision to fund non-federal projects under grants

and cooperative agreements, including infrastructure projects. In order to determine NEPA compliance requirements for a project receiving Department of Commerce (DOC) bureau-level funding, DOC must assess information which can only be provided by the applicant for federal financial assistance (grant).

The Environmental Questionnaire and Checklist (EQC) provides federal financial assistance applicants and DOC staff with a tool to ensure that the necessary project and environmental information is obtained. The EQC was developed to collect data concerning potential environmental impacts that the applicant for federal financial assistance possesses and to transmit that information to the Federal reviewer. The EQC will allow for a more rapid review of projects and facilitate DOC's evaluation of the potential environmental impacts of a project and level of NEPA documentation required. DOC staff will use the information provided in answers to the questionnaire to determine compliance requirements for NEPA and conduct subsequent NEPA analysis as needed. Information provided in the questionnaire may also be used for other regulatory review requirements associated with the proposed project, such as the National Historic Preservation Act.

II. Method of Collection

The primary method of collection will be the Internet (electronically). Some supporting documents may be emailed, or mailed.

Estimated Total Annual Cost to Public: \$1,000 in miscellaneous costs (\$5 × approximately 200 respondents who would mail attachments rather than emailing them).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information

is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Foreign-Trade Zones Board

[B-22-2017]

Foreign-Trade Zone (FTZ) 167—Brown County, Wisconsin, Notification of Proposed Production Activity, Polaris Industries, Inc., (Spark-Ignition Internal Combustion Engines), Osceola, Wisconsin

Polaris Industries, Inc. (Polaris), operator of Subzone 167B, submitted a notification of proposed production activity to the FTZ Board for its facility in Osceola, Wisconsin. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on April 4, 2017.

Polaris already has authority to produce spark-ignition internal combustion engines to equip snowmobiles, all-terrain vehicles, and motorcycles within Subzone 167B. The current request would add finished spark-ignition internal combustion engines for on-road vehicles and foreign status components to the scope of authority. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Polaris from customs duty payments on the foreign-status components used in export production.
