ACTION: Proposal of NPDES General Permit Renewal.

SUMMARY: EPA Region 6 today proposes a National Pollutant Discharge Elimination System (NPDES) general permit regulating discharges from oil and gas wells in the Stripper Subcategory which discharge into waters in Texas.

FOR FURTHER INFORMATION CONTACT: Ms. Evelyn Rosborough, Region 6, U.S. Environmental Protection Agency, 1445 Ross Avenue, Dallas, Texas 75202-2733. Telephone: (214) 665-7515.

A complete draft permit and a fact sheet more fully explaining the proposal may be obtained online from the *Federal eRulemaking Portal* accessing the Docket listed above or from Ms. Rosborough. In addition, the Agency's current administrative record on the proposal is available for examination at the Region's Dallas offices during normal working hours after providing Ms. Rosborough 24 hours advance notice.

SUPPLEMENTARY INFORMATION: The current permit authorizes discharges of produced water from wells in the Stripper Subcategory located east of the 98th meridian whose produced water comes from the Carrizo/Wilcox, Reklaw or Bartosh formations in Texas as authorized by the expiring permit. EPA is soliciting comments whether to expand the permit coverage to include all stripper wells in Texas. The permit proposes to authorize discharges of produced water, well field drainage, and chemical-free miscellaneous discharges. More stringent requirements are proposed to regulate discharges to water quality-impaired waterbodies. Proposed changes include (1) removal of authorization for sanitary waste, domestic waste, and miscellaneous discharges which are unrelated to stripper well operations; (2) removal of authorization of direct discharge to coastal waters; (3) revision of the toxicity monitoring requirement and removal of the ion-imbalance exemption; (4) the addition of electronic filing requirements for Notices of Intent (NOIs); and (5) the addition of a "sufficiently sensitive method" requirement for analysis. Rationales for those changes are described in the Fact Sheet. To obtain discharge authorization, operators of such facilities must submit a new NOI. To determine whether your facility, company, business, organization, etc. is regulated by this action, you should carefully examine the applicability criteria in Part I, Section A.1 of this permit.
