The Board will also advise the Attorney General about the appointment of the Director of the NIC.

The Board shall report to the Director of the NIC. The Director of NIC or his/her designated representatives may act upon the Board’s advice and recommendations.

Under 18 U.S.C. 4351(b) and (c), the Board shall consist of sixteen members. The following six individuals shall serve as members of the Board ex officio: The Director of the Federal Bureau of Prisons or his designee, the Assistant Attorney General for the Office of Justice Programs or his designee, Chairman of the United States Sentencing Commission or his designee, the Director of the Federal Judicial Center or his designee, the Associate Administrator for the Office of Juvenile Justice and Delinquency Prevention or his designee, and the Assistant Secretary for Human Development of

Overview of This Information Collection

1. *Type of Information Collection:* Modification of the Bureau of Justice Statistics' (BJS) campus climate survey; Cognitive testing; Pilot testing of modified survey.

2. *The Title of the Form/Collection:* Historically Black Colleges and Universities (HBCU) Sexual Violence Climate Survey Project.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The applicable component within the U.S. Department of Justice is the National Institute of Justice in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* In early 2014, the White House established the Task Force to Protect Students from Sexual Assault. Representatives to the Task Force were from several federal departments and agencies, including the Centers for Disease Control and Prevention (CDC), the Office on Violence Against Women (OVW), and the National Institute of Justice (NIJ). The task force put forth a mandate to strengthen federal enforcement efforts and provide schools with additional tools to help prevent sexual violence on campuses. One such tool is the campus climate survey

designed to help schools understand the magnitude and nature of sexual victimization experienced by students. As such, in 2014 OVW funded BJS, within the U.S. Department of Justice, to develop and test a pilot campus climate survey. The current project builds on the work of BJS by modifying their campus climate survey for use at HBCUs.

5. NIJ, in collaboration with the Rutgers Violence Against Women Research Consortium, will begin by engaging in cognitive testing to determine if the BJS campus climate survey is relevant to students from HBCUs. The methods for cognitive testing are based on the methods used in the BJS Validation Study. Two forms of cognitive testing will be used. First, crowdsourcing will be used to test the instrument online. Approximately 240 crowdsourced surveys will be piloted with participants who are 18–25 years old, with a high school degree and matching the racial/ethnic demographics of HBCUs over approximately 2 months. Second, cognitive interviewing will then be used to further test the BJS campus climate survey with 30 African American students (potentially to be recruited from the Rutgers-Newark campus). The BJS survey instrument will then be modified based the findings from the crowdsourced surveys and cognitive interviews for use at HBCUs. Lastly, the modified BJS survey will be pilot tested at three to six HBCUs; the survey will be offered to a random sample of 3,300 students over a period of approximately 2 months. At the end of this study, results from the survey will assist with the validation of a campus climate survey tool for HBCUs as well as information on the sexual violence rates at HBCUs.

6. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated range of burden for respondents completing the crowdsourcing survey is 30 minutes. Approximately 240 participants will be recruited to complete the survey. The estimated range of burden for respondents participating in the cognitive interviewing is 60 minutes. Approximately 30 students will be recruited to complete a cognitive interview. Lastly, the estimated range of burden for respondents completing the HBCU campus climate survey is expected to be between 15 to 30 minutes for completion. The following factors were considered when creating the burden estimate: the estimated total number of sites (three HBCUs plus one cognitive testing site) and students

within sites (240 for crowd sourced surveys, 30 for cognitive interviews, and 3,300 at HBCUs), in the sampling plan for a total of 3,570 expected respondents.

7. *An estimate of the total public burden (in hours) associated with the collection:* The estimated public burden associated with this collection is 1,800 hours. It is estimated that each of the 240 crowd sourced surveys will take 30 minutes to complete (240 respondents × 30 minutes = 120 hours). It is estimated that each of the cognitive interviews will take 60 minutes to complete (30 respondents × 1 hour = 30 hours). Lastly, it is estimated that each campus climate survey will take 30 minutes to complete (3,300 respondents × 30 minutes = 1,650 hours). We estimate a 24-month data collection period, with all cognitive testing completed in year one (1) for an annualized burden of 150 hours and all surveys administered in year two (2), or an annualized burden of 1,650 hours for year 2.
