List of Subjects in 33 CFR Part 110

Anchorage grounds.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 110 as follows:

PART 110—ANCHORAGE REGULATIONS

■ 1. The authority citation for part 110 continues to read as follows:

Authority: 33 U.S.C. 471, 1221 through 1236, 2071; 33 CFR 1.05–1; Department of Homeland Security Delegation No. 0170.1.

■ 2. Add § 110.184 to read as follows:

§ 110.184 Atlantic Ocean, Offshore Jacksonville, FL.

(a) *The anchorage ground.* All waters of the Atlantic Ocean encompassed within the following points: Starting at Point 1 in position 30°29.08' N., 81°18.21' W.; thence south to Point 2 in position 30°26.06' N., 81°18.21' W.; thence east to Point 3 in position 30°26.06' N., 81°16.05' W.; thence north to Point 4 in position 30°29.08' N., 81°16.05' W.; thence west back to origin. All coordinates are North American Datum 1983.

(b) *The regulations.* (1) Commercial vessels in the Atlantic Ocean in the vicinity of the Port of Jacksonville must anchor only within the anchorage area hereby defined and established, except in cases of emergency.

(2) Before entering the anchorage area, all vessels must notify the Coast Guard Captain of the Port (COTP) Jacksonville on VHF–FM Channel 22A.

(3) All vessels within the designated anchorage area must maintain a 24-hour bridge watch by a licensed or credentialed deck officer proficient in English, monitoring VHF–FM channel 16. This individual must confirm that the ship's crew performs frequent

checks of the vessel's position to ensure the vessel is not dragging anchor.

(4) Vessels may anchor anywhere within the designated anchorage area provided that: Such anchoring does not interfere with the operations of any other vessels currently at anchorage; and all anchor and chain or cable is positioned in such a manner to preclude dragging.

(5) No vessel may anchor in a “dead ship” status (that is, propulsion or control unavailable for normal operations) without the prior approval of the COTP Jacksonville. Vessels experiencing casualties such as a main propulsion, main steering or anchoring equipment malfunction or which are planning to perform main propulsion engine repairs or maintenance, must immediately notify the COTP Jacksonville on VHF–FM Channel 22A.

(6) No vessel may anchor within the designated anchorage for more than 72 hours without the prior approval of the COTP Jacksonville. To obtain this approval, contact the COTP Jacksonville on VHF–FM Channel 22A.

(7) The COTP Jacksonville may close the anchorage area and direct vessels to depart the anchorage during periods of adverse weather or at other times as deemed necessary in the interest of port safety or security.

(8) Commercial vessels anchoring under emergency circumstances outside the anchorage area must shift to new positions within the anchorage area immediately after the emergency ceases.

Dated: April 27, 2017.

Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To Remove the Bone Cave Harvestman From the List of Endangered and Threatened Wildlife

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 90-day finding on a petition to remove

the Bone Cave harvestman (*Texella reyesi*) from the List of Endangered and Threatened Wildlife (*i.e.*, “delist” the species) under the Endangered Species Act of 1973, as amended (Act). Based on our review, we find that the petition does not present substantial scientific or commercial information indicating that the petitioned action may be warranted. However, we ask the public to submit to us any new information that becomes available concerning the status of, or threats to, the Bone Cave harvestman or its habitat at any time.

DATES: The finding announced in this document was made on May 4, 2017.

ADDRESSES: A copy of the petition is available on <http://www.regulations.gov> under Docket No. FWS-R2-ES-2017-0018, or by request from the person listed under **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT: Adam Zerrenner, Field Supervisor, Austin Ecological Services Field Office, 10711 Burnet Road, Suite 200, Austin, TX 78758; telephone 512-490-0057; or facsimile 512-490-0974. If you use a telecommunications device for the deaf (TDD), please call the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION:

Background

Section 4(b)(3)(A) of the Act requires that we make a finding on whether a petition to list, delist, or reclassify a species presents substantial scientific or commercial information indicating that the petitioned action may be warranted. To the maximum extent practicable, we are to make this finding within 90 days of our receipt of the petition and publish our notice of the finding promptly in the **Federal Register**.

At the time we received the petition discussed below (June 2, 2014), the standard for substantial scientific or commercial information with regard to this 90-day petition finding was “that amount of information that would lead a reasonable person to believe that the measure proposed in the petition may be warranted” (50 CFR 424.14(b)). If we find that a petition presents substantial scientific or commercial information, we are required to promptly commence a review of the status of the species, and we will subsequently summarize the status review in our 12-month finding.

Section 4 of the Act (16 U.S.C. 1533) and its implementing regulations at 50 CFR part 424 set forth the procedures for adding a species to, or removing a species from, the Federal Lists of Endangered and Threatened Wildlife and Plants. A species may be delisted for one of three reasons: Extinction,

recovery, or the original data for classification were in error. A species may be determined to be an endangered or threatened species for the purpose of listing, or recovered for the purpose of delisting, as result of an assessment of the five factors described in section 4(a)(1) of the Act.

Evaluation of a Petition To Delist the Bone Cave Harvestman, Which Is Listed as an Endangered Species Under the Act

Species and Range

The Bone Cave harvestman (*Texella reyesi*) occurs in Travis and Williamson Counties, Texas, and was listed as an endangered species on September 16, 1988 (53 FR 36029). See 58 FR 43818, August 18, 1993, for more information.

Petition History

On June 2, 2014, we received a petition from John Yearwood, Kathryn Heidemann, Charles and Cheryl Shell, the Walter Sidney Shell Management Trust, the American Stewards of Liberty, and Steven W. Carothers requesting that we remove the endangered Bone Cave harvestman from the Federal List of Endangered and Threatened Wildlife. The petition clearly identified itself as a petition and included the requisite identification information for the petitioners, as required at that time in 50 CFR 424.14(a). The Service and National Marine Fisheries Service (“Services”) revised the regulations at 50 CFR 424.14 to clarify the procedures under which the Services evaluate petitions effective October 27, 2016 (81 FR 66462; September 27, 2016). We originally received the petition that is the subject of this document on June 2, 2014, with supplemental information received on October 6, 2016. We, therefore, evaluated this petition under the 50 CFR 424.14 requirements that were in effect prior to October 27, 2016, as those requirements applied when the petition and supplemental information were received. At that time, our standard for substantial scientific or commercial information within the Code of Federal Regulations (CFR) with regard to a 90-day petition finding was “that amount of information that would lead a reasonable person to believe that the measure proposed in the petition may be warranted” (50 CFR 424.14(b)(1)). On June 1, 2015, the Service published a 90-day finding in the **Federal Register** (80 FR 30990) that the petition did not present substantial scientific or commercial information indicating that the petitioned action was warranted. On December 15, 2015, the American

Stewards of Liberty, Charles and Cheryl Shell, Walter Sidney Shell Management Trust, Kathryn Heidemann, and Robert V. Harrison, Sr., challenged the June 1, 2015, 90-day finding in Federal district court. The Service sought the court’s permission to reconsider the 90-day finding. On December 22, 2016, the court ordered the Service to complete a 90-day finding and deliver that finding to the **Federal Register** on or before March 31, 2017, and subsequently extended to May 1, 2017. This finding addresses the court’s order and the 2014 petition.

Recently, we began publishing multiple 90-day petition findings in a single, batched **Federal Register** notice and using a template format for supplementary information for each finding, to ensure consistency and transparency among findings. We are providing the supporting information for this finding in both the former single-petition **Federal Register** notice format that was used for the prior finding, and the new batched-notice template format. Both of these rely on identical information and can be found along with this **Federal Register** notice at Docket No. FWS-R2-ES-2017-0018. The prior traditional **Federal Register** notice also includes some additional information not included in the petition review form with respect to information such as representation, redundancy, and resilience.

Finding

Based on our review of the petition, sources cited in the petition, and the additional information provided, we find that the petition does not present substantial scientific or commercial information indicating that delisting the Bone Cave harvestman may be warranted. Although this finding ends our formal consideration of the petition, we are in the process of conducting a species status assessment and 5-year status review of the Bone Cave harvestman. Specifically, section 4(c)(2)(A) of the Act requires us to review each listed species’ status at least once every 5 years. On April 15, 2015, we published a notice in the **Federal Register** initiating this review (80 FR 20241). The purpose of a 5-year review is to ensure that listed species have the appropriate level of protection under the Act. In this case, we are developing a species status assessment as a tool to inform the 5-year status review. The 5-year review will consider whether the species’ status has changed since the time of its listing or its last status review and whether it should be reclassified as threatened or delisted. We invite the public, including the petitioners and

other interested parties, to submit new data and information for consideration in this ongoing process.

The basis for our finding on this petition, and other information regarding our review of this petition can be found as an appendix at <http://www.regulations.gov> under Docket No. FWS-R2-ES-2017-0018 in the Supporting Documents section. This 90-day finding supersedes the Service's previous June 1, 2015, 90-day finding, and is made pursuant to the court's December 22, 2016, order; the 2014

petition; and the additional reference materials accompanying the petition.
