Agency for Healthcare Research and Quality

Patient Safety Organizations: Voluntary Relinquishment From the Healogics Patient Safety Institute

AGENCY: Agency for Healthcare Research and Quality (AHRQ), Department of Health and Human Services (HHS).

ACTION: Notice of Delisting.

SUMMARY: The Patient Safety Rule authorizes AHRQ, on behalf of the Secretary of HHS, to list as a PSO an entity that attests that it meets the statutory and regulatory requirements for listing. A PSO can be "delisted" by the Secretary if it is found to no longer meet the requirements of the Patient Safety Act and Patient Safety Rule, when a PSO chooses to voluntarily relinquish its status as a PSO for any reason, or when a PSO's listing expires. AHRQ has accepted a notification of voluntary relinquishment from the Healogics Patient Safety Institute of its status as a PSO, and has delisted the PSO accordingly. The Healogics Patient Safety Institute submitted this request for voluntary relinquishment after receiving a Notice of Preliminary Finding of Deficiency.

DATES: The directories for both listed and delisted PSOs are ongoing and reviewed weekly by AHRQ. The delisting was effective at 12:00 Midnight ET (2400) on March 21, 2017.

ADDRESSES: Both directories can be accessed electronically at the following HHS Web site: <http://www.pso.ahrq.gov/listed>.

SUPPLEMENTARY INFORMATION:

Background

The Patient Safety and Quality Improvement Act of 2005, (Patient Safety Act) and the related Patient Safety and Quality Improvement Final Rule, (Patient Safety Rule), published in the **Federal Register** on November 21, 2008, establish a framework by which hospitals, doctors, and other health care providers may voluntarily report information to Patient Safety Organizations (PSOs), on a privileged and confidential basis, for the aggregation and analysis of patient safety events.

The Patient Safety and Quality Improvement Act of 2005, 42 U.S.C. 299b-21 to b-26, (Patient Safety Act) and the related Patient Safety and Quality Improvement Final Rule, 42 CFR part 3 (Patient Safety Rule), published in the **Federal Register** on November 21, 2008, 73 FR 70732-70814, establish a framework by which hospitals, doctors, and other health care providers may voluntarily report information to Patient Safety Organizations (PSOs), on a privileged and confidential basis, for the aggregation and analysis of patient safety events.

The Patient Safety Act authorizes the listing of PSOs, which are entities or component organizations whose mission and primary activity are to conduct activities to improve patient safety and the quality of health care delivery.

HHS issued the Patient Safety Rule to implement the Patient Safety Act. AHRQ administers the provisions of the Patient Safety Act and Patient Safety Rule relating to the listing and operation of PSOs. The Patient Safety Rule authorizes AHRQ to list as a PSO an entity that attests that it meets the statutory and regulatory requirements for listing. A PSO can be "delisted" if it is found to no longer meet the requirements of the Patient Safety Act and Patient Safety Rule, when a PSO chooses to voluntarily relinquish its status as a PSO for any reason, or when a PSO's listing expires. Section 3.108(d) of the Patient Safety Rule requires AHRQ to provide public notice when it removes an organization from the list of federally approved PSOs.

AHRQ has accepted a notification from the Healogics Patient Safety Institute, a component entity of Healogics, Inc., PSO number P0169, to voluntarily relinquish its status as a PSO. Accordingly, the Healogics Patient

Safety Institute was delisted effective at 12:00 Midnight EDT (2400) on March 21, 2017. AHRQ notes that the Healogics Patient Safety Institute submitted this request for voluntary relinquishment following receipt of the Notice of Preliminary Finding of Deficiency sent to the PSO on February 22, 2017.

Healogics Patient Safety Institute has patient safety work product (PSWP) in its possession. The PSO will meet the requirements of Section 3.108(c)(2)(i) of the Patient Safety Rule regarding notification to providers that have reported to the PSO. In addition, according to Sections 3.108(c)(2)(ii) and 3.108(b)(3) of the Patient Safety Rule regarding disposition of PSWP, the PSO has 90 days from the effective date of delisting and revocation to complete the disposition of PSWP that is currently in the PSO's possession.

More information on PSOs can be obtained through AHRQ's PSO Web site at <http://www.pso.ahrq.gov>.

SUPPLEMENTARY INFORMATION:

Proposed Project

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501-3521, AHRQ invites the public to comment on this proposed information collection. Antibiotics can have serious adverse effects including *Clostridium difficile*

infections (CDI), organ dysfunction, allergic reactions, and the development of antibiotic resistance on both a patient level and population level. This project will assist acute care, long-term care and ambulatory care settings across the United States in adopting and implementing antibiotic stewardship programs, which are coordinated efforts to improve the use of antibiotics by promoting the selection of the optimal antibiotic regimen, dose, route of administration, and duration of therapy.

More specifically, this project has the following goals:

- Identify best practices in the delivery of antibiotic stewardship in the acute care, long-term care and ambulatory care settings
- Adapt the Comprehensive Unit-Based Safety Program (CUSP) model to enhance antibiotic stewardship efforts in the health care settings
- Assess the adoption of CUSP for antibiotic stewardship and evaluate the effectiveness of the intervention in the participating health care systems
- Develop a bundle of technical and adaptive interventions and associated tools and educational materials designed to support enhanced antibiotic stewardship efforts
- Provide technical assistance and training to health care organizations nationwide, using a phased approach, to implement effective antibiotic stewardship programs and interventions
- Improve communication and teamwork between health care workers surrounding antibiotic decision-making
- Improve communication between health care workers and patients/families surrounding antibiotic decision-making

This study is being conducted by AHRQ through its contractor Johns Hopkins University, with subcontracted partner NORC. The *AHRQ Safety Program for Improving Antibiotic Use* is being undertaken pursuant to AHRQ's mission to enhance the quality, appropriateness, and effectiveness of health services, and access to such services, through the establishment of a broad base of scientific research and through the promotion of improvements in clinical and health systems practices, including the prevention of diseases and other health conditions. 42 U.S.C. 299.

Method of Collection

To achieve the goals of this project the following data collections will be implemented:

(1) *Structural Assessments:* A brief (five to seven questions), online
