Title of Collection: Impact Study of Feedback for Teachers Based on Classroom Videos.

OMB Control Number: 1850–NEW.

Type of Review: A new information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 4,091.

Total Estimated Number of Annual Burden Hours: 1,359.

Abstract: The goal of this evaluation is to examine the impact of video-based observations and feedback on the classroom practices and student achievement of novice teachers (in their first year of teaching) and early career teachers (in their second through fourth years of teaching). This study, using a

random assignment design, provides an important test of whether intensive, individualized support for teachers improves their instructional practices and ultimately student achievement. By focusing on novice teachers, the study has the potential to inform both teacher induction policies and teacher preparation programs. Examining the impact of this intervention on novice and early career teachers can also inform the effectiveness of providing individualized feedback as a model for teacher professional development programs. The study includes 12 districts and approximately 500 teachers who will be participating in the study.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-R07-OW-2017-0097; FRL-9960-75-Region 7]

Notice of Approval of Underground Injection Control Program; Occidental Chemical Corporation, Wichita, Kansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of approval of modification of existing no migration petition.

SUMMARY: Environmental Protection Agency (EPA) is hereby giving notice of approval of the modification of an existing no migration petition (petition) by Occidental Chemical Corporation (Occidental) under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act.

DATES: This action is effective June 12, 2017.

ADDRESSES: Copies of the petition and all pertinent information relating thereto are on file at Environmental Protection Agency, Region 7, Regional Records Center, 11201 Renner Boulevard, Lenexa, Kansas 66219.

FOR FURTHER INFORMATION CONTACT: Mary Tietjen Mindrup, Chief, Drinking Water Management Branch, EPA Region 7, 11201 Renner Boulevard, Lenexa, Kansas 66219, telephone (913) 551-7431, or email mindrup.mary@epa.gov.

SUPPLEMENTARY INFORMATION: EPA is hereby giving notice of approval of the modification of an existing no migration

petition (petition) for exemption from hazardous waste disposal restrictions of the Resource Conservation and Recovery Act Class I Hazardous Waste Injection for Occidental Chemical Corporation (Occidental) under the 1984 Hazardous and Solid Waste Amendments Occidental has adequately demonstrated to the satisfaction of EPA by the petition modification application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous.

The existing petition allows for the subsurface disposal by Occidental of specific restricted wastes via Class I injection wells at Occidental's Wichita, Kansas facility and was approved by EPA with an effective date of October 24, 2008. In its modification application, Occidental requested that the existing petition include Well Number 11, a new well, as a replacement for Well Number 4, which was permanently plugged in 2008. This action results in no change to the volume of fluids to be injected.

This final decision allows the underground injection by Occidental of the specific restricted wastes identified in the modified petition into injection well Number 11 at the Wichita, Kansas facility until December 31, 2020, unless EPA moves to terminate this exemption. Included in this approval is the stipulation that Occidental acquires and continues to maintain an approved permit from the Kansas Department of Health and Environment.

A public notice concerning the Agency's proposed action was issued on December 12, 2016, and the public comment period closed on January 25, 2017. In addition to soliciting written comments regarding the Agency's proposed approval, EPA conducted a public availability session and a formal public hearing on January 11, 2017, at the Haysville Learning Center in Haysville, Kansas. No comments were received during the comment period. This decision constitutes a final Agency action. There is no further administrative process to appeal this decision.
